

Dr. Salim Ismail MD

BHB, MBCHB,

FACNEM, WOSAAM, ABAARM

Email: drsalimismail@gmail.com

Dr. Salim Ismail is currently travelling abroad and is an experienced Integrative and Regenerative Medicine specialist with over 25 years of clinical experience and research. He has travelled extensively and worked with different health care models. He currently works in a Corporate Executive role directing health design and systems. He is also a consultant to major Antiaging and Wellbeing companies based in the Asian Pacific region.

He creates innovative and comprehensive systems and programs that drive excellence in Integrative and Functional Medicine.

Dr. Ismail graduated from the University of Auckland, New Zealand MBCH 1990.

He is a Fellow of the Australian College of Nutritional & Environmental Medicine and Fellow of the American Institute of Stress.

He is board certified in Antiaging medicine with both the World Society of Antiaging Medicine (WOSAAM) and the American Board of Antiaging and Regenerative Medicine (ABAARM).

He is also an active member of various Antiaging Associations including The International Hormone Society (IHS), The Australian Academy of Anti-Ageing Medicine (A5M) and The Malaysian Association for Advancement of Functional and Interdisciplinary Medicine.
