Earning Renewal Credits

- All sessions offered in the One Stop Workshop qualify for renewal credits per *Option 10* on SCDE's [Renewal Credit Matrix](#).
- After attending a session, a certificate of completion will auto-generate in your account. These certificates fulfill part 1 of the documentation requirements.
- Educators must also provide documentation containing the dates, times, and synopsis of each session attended. You can use [this spreadsheet](#) as a template.
- When you are ready to submit your documentation, simply print and sign the spreadsheet and submit along with certificates to your building level administrator or appropriate district personnel.

Attending Live Sessions

- Most live sessions will be hosted in the Theater. If there is a panel discussion or topic roundtable, those will take place in the Lounge.
- For upcoming sessions, you will see a countdown. Once the countdown is over, the session begins, you will be able to join.
- Make sure that you give your browser permission to access your camera and microphone.
- Live sessions use Zoom, but it is embedded in the platform, so it may look different from your regular Zoom app, and some features are limited.
- Should you need technical support, you can always contact vFairs support or email us at VTL@artsgrowsc.org
