

Welcome to the virtual Global Peace Convention 2023!

We hope you can use this platform to advance the work of building peace and social cohesion as one human family. We encourage you to network with others and engage in the content available in this virtual environment. Throughout the platform, there are various ways to connect with other peacebuilders from around the globe.

As a gentle reminder, our values-based approach to peacebuilding across all lines of difference similarly applies to our online community. Please use chat functions and networking spaces to ask questions or discuss topics related to peacebuilding and find meaningful ways to become peacebuilders in our everyday lives. We encourage participants to introduce themselves to other peacebuilders. Please share which nation you are from, areas of work you are involved in, or any recent programs or projects you have participated in.
