Mitigate Survey Refusals Before They Occur

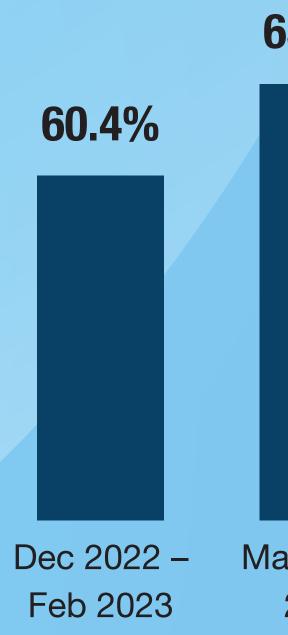

- The BFCC-SC conducts group refusal aversion sessions with interviewers to analyze Experience Survey refusals.
- The group listens to recordings of Experience Survey refusals and discusses ways to improve interviewer response to potential refusals in the future.

Utilize Highly Trained Interviewers

The BFCC-SC trains interviewers to understand the issues that are prevalent in the Medicare beneficiary population including dementia, hearing issues, and depression.

RESULT: RESPONSE RATES TRENDING **OVER 60% FOR THE PAST YEAR**
