

One World Together: Transforming Support for Global Development

1 The Issue

Current funding systems don't trust local organisations to meet their own challenges. They give money on a short-term basis, funding projects tied to the priorities of donors rather than the communities they serve.

e The Solution

One World Together believes that as a community we can change the nature of support for global development by shifting money and power to the organisations closest to communities. Together.

One World Together's vision is to **disrupt unequal systems of power present in traditional forms of giving. We instead promote a long-term and unrestricted model of funding while building a network based on solidarity and knowledge sharing through our Global Citizens, Youth Board, Student Union Societies and Community Partner organisations!**

Let's Build Solidarity!

Join us for a **brainstorming session on upscaling our long-term and unrestricted funding model** to support brilliant local organisations across the globe!

JOIN OUR
WAVE OF
CHANGE

Tuesday, 19th March | 12:30-14:00
UN Church Center Chapel
or register to attend
via Zoom [here](#)

Moderated By: Skyler Colarusso, Operations Manager
