HIGH QUALITY PVC COMPOUNDS FROM INDO-CHINESE JOINT VENTURE

Jain Metal group, a Rs. 2000 Cr. turnover Multi Product and Multi Location industrial house having a standing of more than 70 years, has set up a state-of-the-art plant near Chennai for production of high quality PVC compound granules.

Raw materials are imported from Japan, Europe, America and Australia.

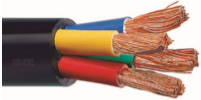

Spread over 5 acres of land, the plant deploys imported machineries with modern technical features.

Plant has a monthly capacity of 800 tons.
