Products

# Services we offer

## **Trading & Structured Services in Base Metals:**

This division handles trading in all three segments of base metals – Primary, Secondary & Scrap. It also represents large scrap processing companies situated in North America for selling their processed scrap in Europe & Asia.

- ✓ To become a recycling company to be reckoned with globally by next decade.
- ✓ To impart confidence to our business partners about quality of scrap processed in our facility by judicious mix of modern processing technologies & personal obsession for quality.
- ✓ Its our endeavor to add value to our partners in business. We are committed to supply high quality products and services to our business partners. It's a matter of pride for us that we have a large family of satisfied customers and suppliers spread all across the globe.
