KRISTEN BITSUIE
TRIBAL HEALTH CARE REFORM
OUTREACH AND EDUCATION
POLICY COORDINATOR
NATIONAL INDIAN HEALTH
BOARD

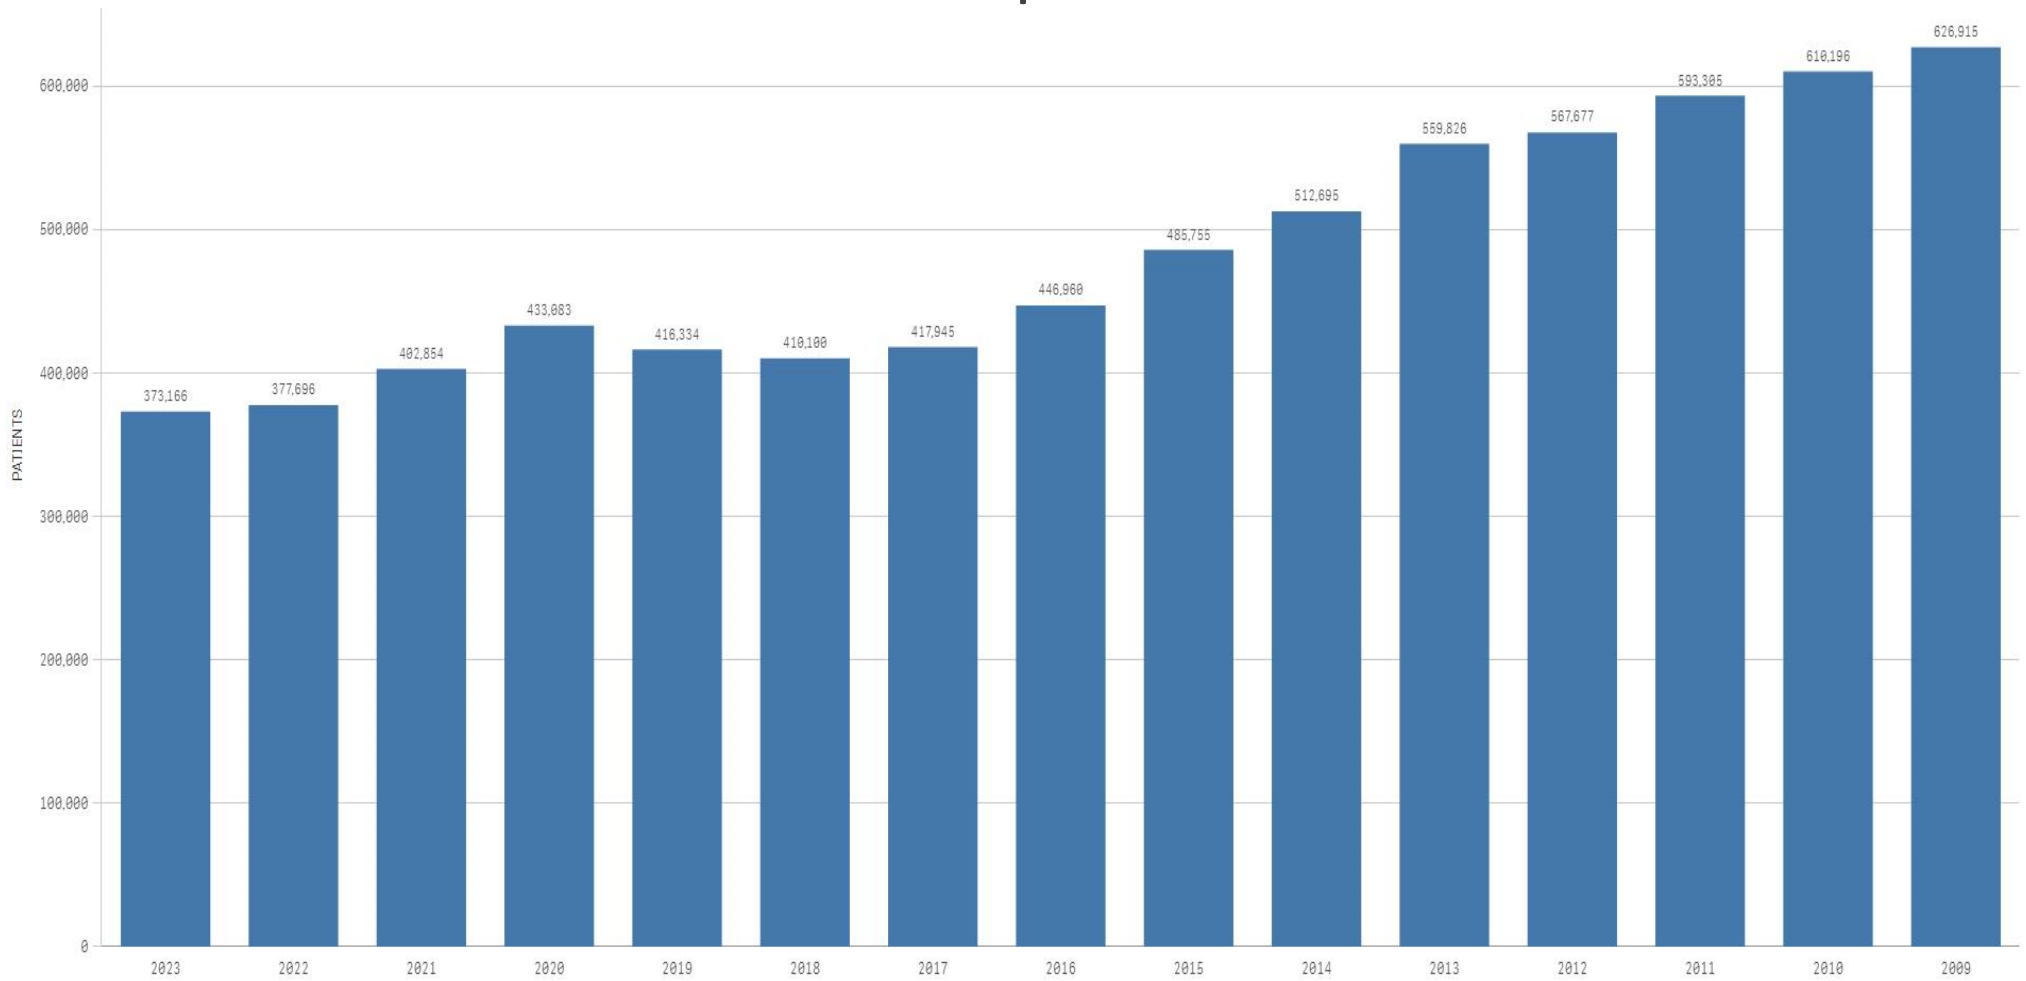

Session Description

Outreach and Education is an essential component to increased access to health care for American Indian and Alaska Native (AI/AN) people. This breakout session will serve as a forum for participants to share ideas, seek feedback, and collectively explore creative solutions to challenges with outreach and education in AI/AN communities. This session will serve as the ideal time to engage with health educators, benefit coordinators, navigators, and other healthcare professionals. We welcome participants to come ready to share experiences and information on best practices, challenges and creative solutions.

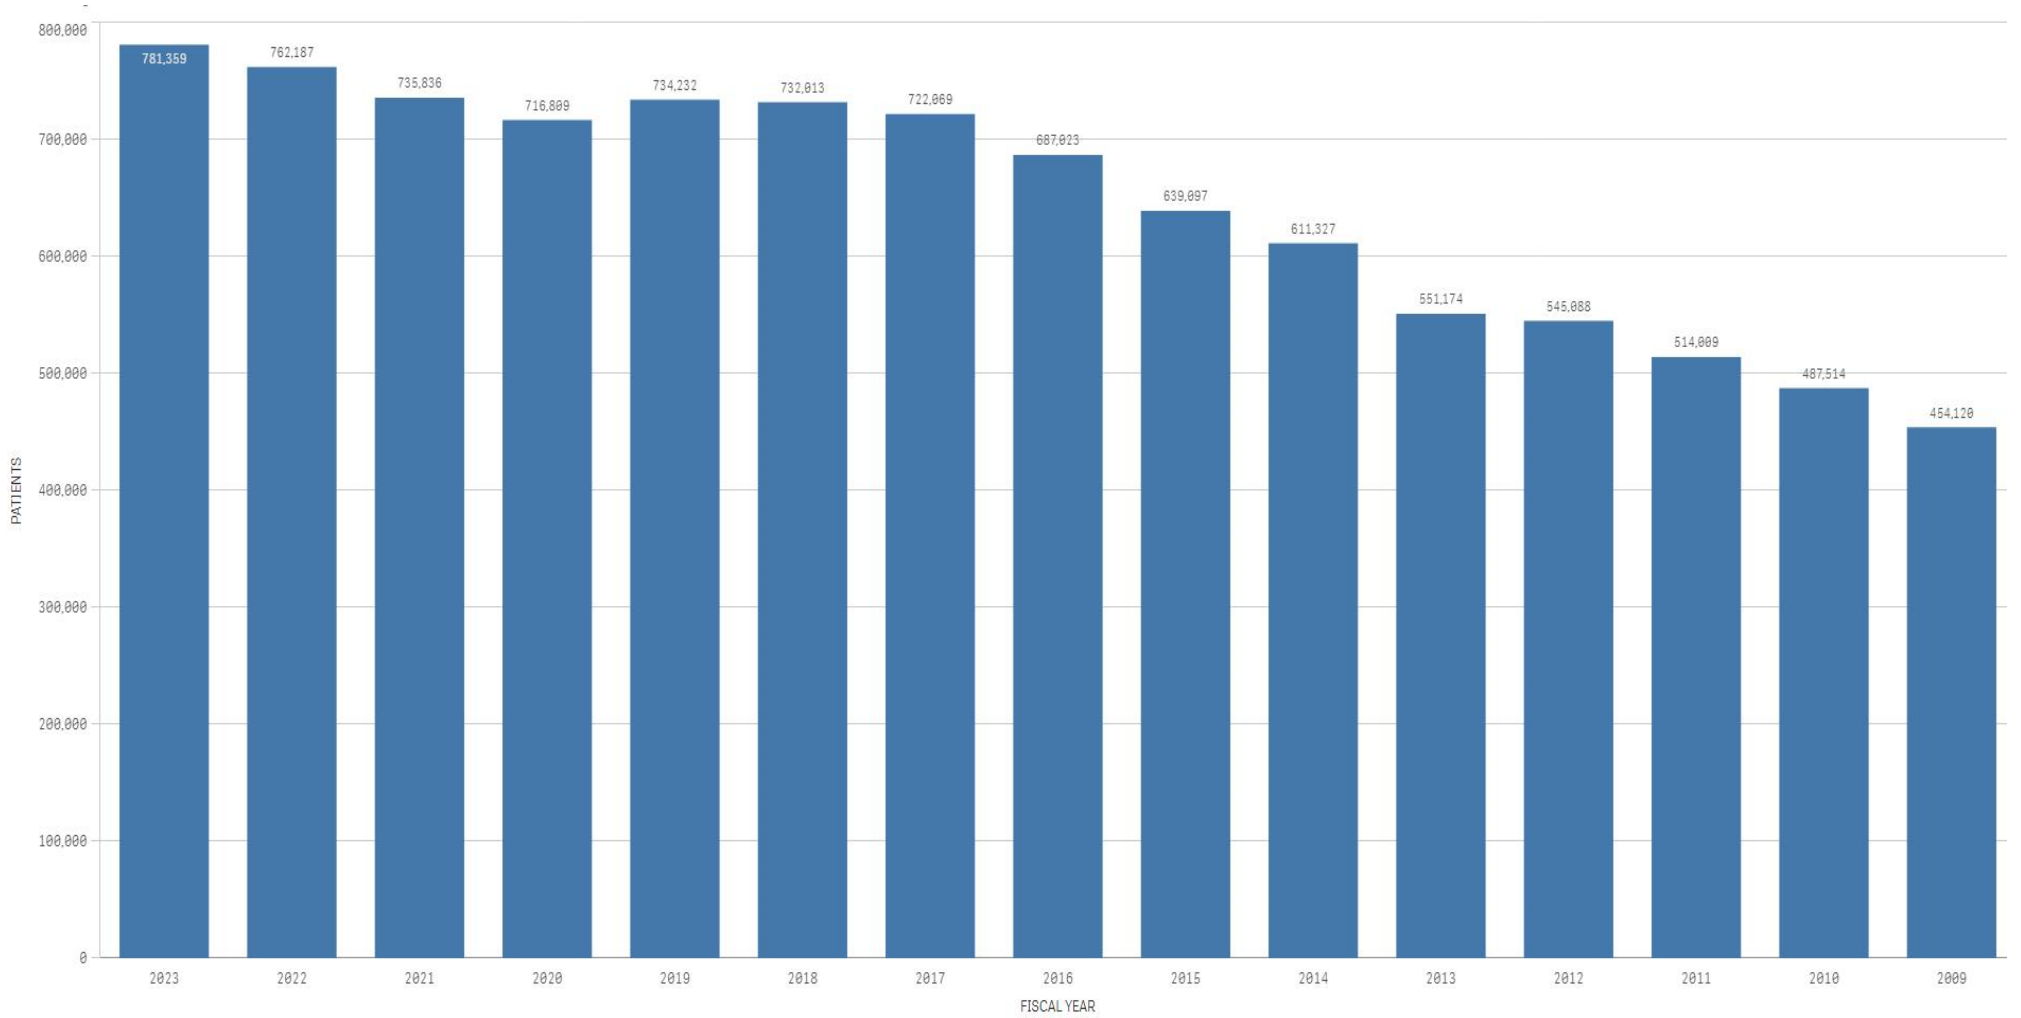

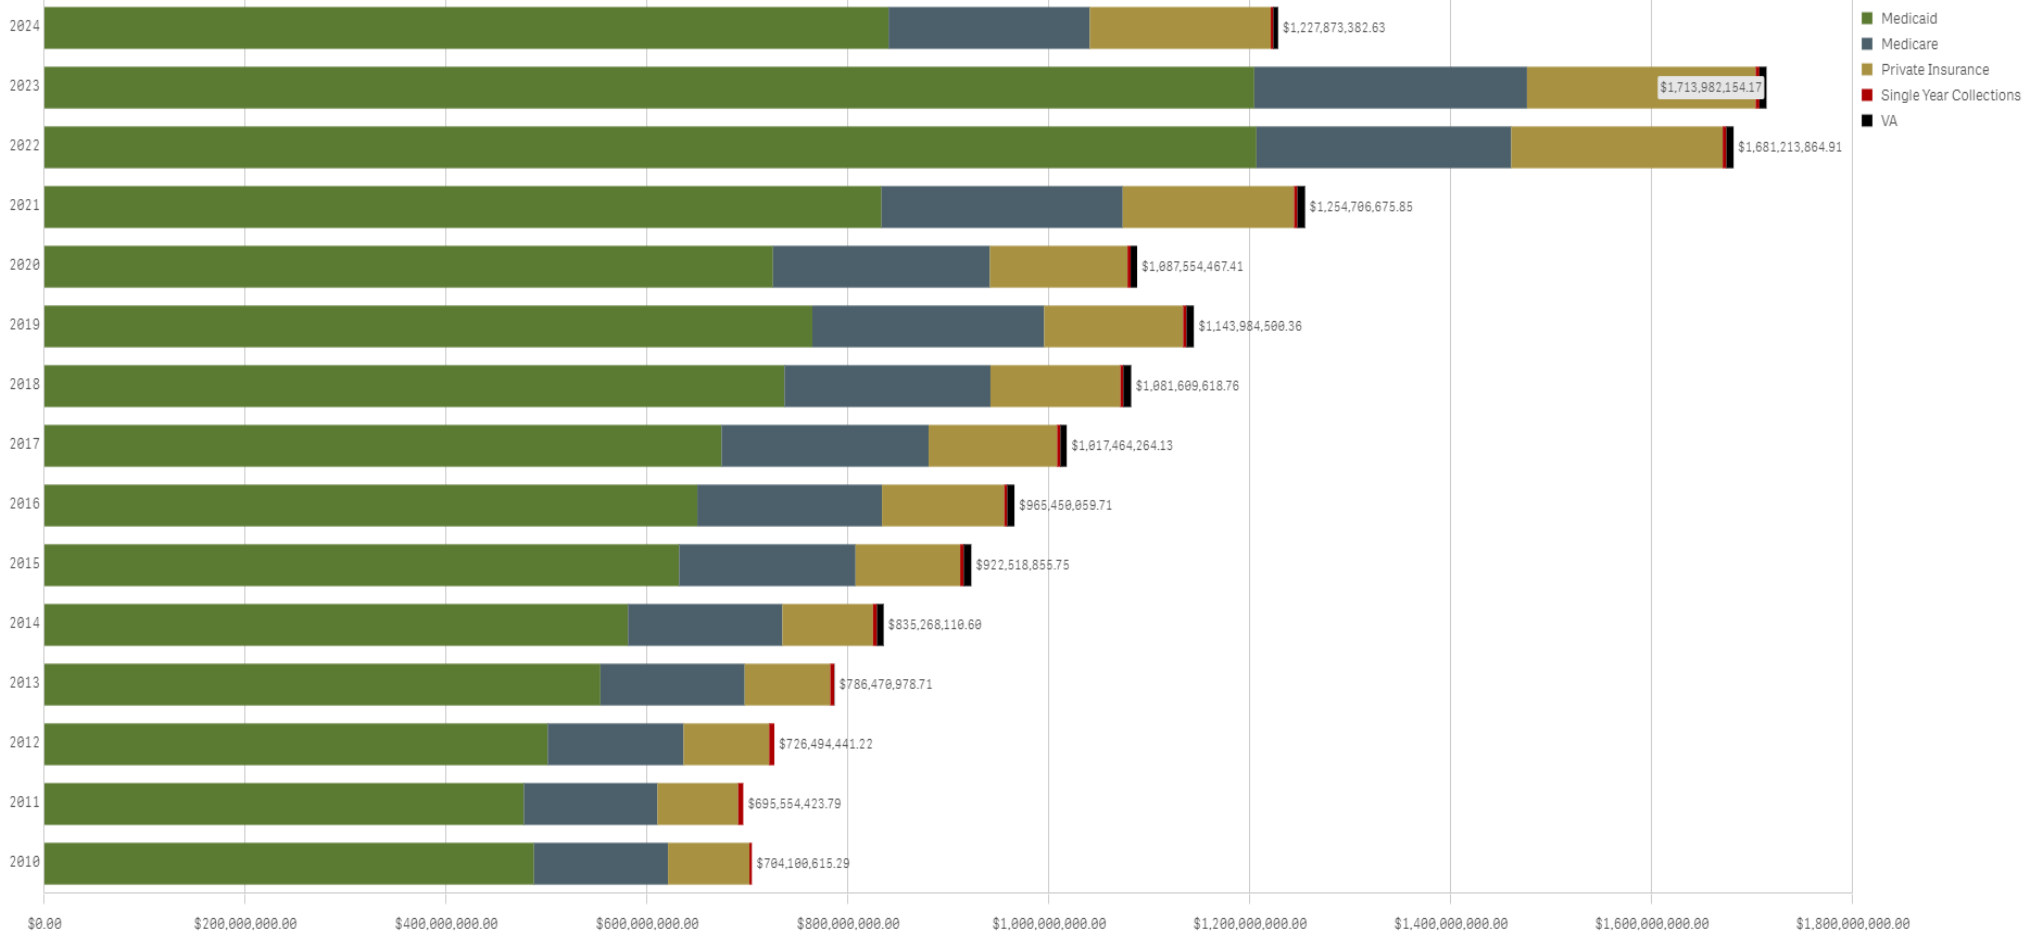

IHS User Population – Uninsured

IHS Patients Enrolled in Medicaid

IHS Third Party Revenue
