BEDD/AMER – Emergency Room Dashboard

MELANA BARKER, MSN-NI, RN

IHS OIT CLINICAL NURSE INFORMATICIST

BEDD v2.0 p9 & AMER v3.0 p15

High priority release for August 2024

- Add the ability to check for duplicate entries in BEDD
- Allow for Visit date/time changes in AMER, PCC, and BEDD

BEDD v2.0 p10 & AMER v3.0 p16

Upcoming Release

- Banner color changes based on specific statuses set by site
 - Example: Suicidal Ideation = magenta, Stroke = purple, MI's = blue
- BEDD ESI level color coded
 - Example: 1=Red and 2 = Orange, 3 = Yellow, 4= green and 5= blue
- Patient flags to display in Patient Edit screen and BEDD
- Actions report to be generated containing information pulled from General Notes section on the Patient Edit screen and from the actions column on BEDD

BEDD v2.0 p10 & AMER v3.0 p16

Upcoming Release

- Adding the ability to display providers first name on BEDD
- Change the time display to hour and minutes for better readability
- Create a Trauma Registry – a new field for trauma activation and a corresponding report
- Changing “Prime” to “Primary” in the discharge section

*Note: Additional features will be included in FY24. The listed features require a large amount of effort and the BEDD/AMER team hope to incorporate these features
