

GET READY FOR ORIENTATION!

MONASH
University

The Monash Business School Orientation is accessible to all students, regardless of where you are in the world. Each day will host different activities, some of which are noted below:

Course preparation and advice

Find out about managing your enrolments, using the Handbook, recognition of prior learning and key considerations throughout your journey at Monash. Look for '**Course Advice**' in the title.

Meet your Academics

Take the opportunity to meet with your academics and their departments. Look for sessions with '**Course Director**' or '**Course Information**' in the title.

Moderated panels

Each day we will introduce you to various members of the community, including fellow students, and what they offer new students. Look for sessions with '**Panel**' in the title.

Club Carnival

Meet club and society student representatives and find out how you can get involved. Each will introduce themselves, address any questions you may have and then host a fun social activity.

Fun and games

Within the Orientation Fair there is a scavenger hunt and a leaderboard to participate in and win prizes. Each day will also feature a unique **daily quiz** with a \$50 AUD gift card up for grabs.

You can register for as many sessions as you like, just be mindful that some may clash (check the time next to the session title).

LIVE CHAT ROOMS

Engage and find out more about the Monash community by accessing the suite of chat rooms available. The chat rooms will have various staff and students ready for a chat from 11am to 4pm (AEDT) each day. The chat rooms include:

- **Course Advice:** Need to ask a question about enrolments or your course structure? Experienced course advisors are waiting to help you.
- **Services, support and resources:** The University has a wealth of support available to students. Jump into this room to find out what is on offer and chat with some of our service staff.
- **Ways to get involved:** Find out about all the various groups, activities, experiences and facilities that you can access or be involved with.
- **Clubs and Societies:** Make friends, create a network or pursue a passion – there is a club or society eager to tell you about what they do and how you can join!
- **Future study considerations:** You might be just starting your journey, but for those eager to find out about what they could do towards the later stages of their degree, including study experiences, then this is the room to ask questions and seek information.

DON'T FORGET TO

Visit the **Orientation Hub**, your one stop webpage for new students and **sign up** to the **Business School student bulletin**, to stay up to date on opportunities for business students.
