Better hearing starts here

Treating hearing loss may help you rediscover parts of your life that may have felt missing – including engaging in daily activities and staying connected to the people you love. You'll also support your long-term health and can potentially reduce the risk of diseases such as dementia.¹

Getting a professional hearing test is an important first step in taking care of your hearing. If you already have hearing aids, have them evaluated to make sure they're the right devices for you. Both of these services are covered at no cost by your UnitedHealthcare plan, and can help you protect your hearing as well as your overall health.
