EMEA WORK SUMMIT 2021

FEBRUARY 3, 2021
10:00 CET

REMOTE | RESILIENCE | REINVENT

Welcome to the Citrix EMEA Work Summit 2021

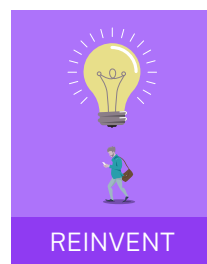

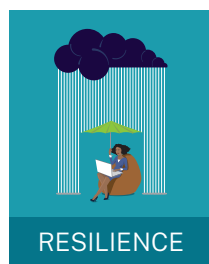

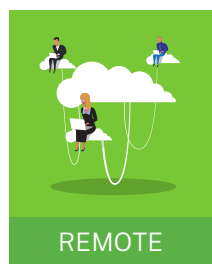

This entirely virtual conference will feature customers, partners, top Citrix talent and guest speakers as they discuss reimagining employee experience, accelerating transformation to cloud, and much more!

Below, we have highlighted some of the key event features to help you get the most out of the event.

Agenda Workstreams

Three workstreams have been carefully created to help navigate challenges which you and your organisation may be facing.

- **Remote** - working anywhere can work for you. You want to learn how to build a better remote work strategy.
- **Resilience** - adaptable and secure work. You want to learn how to transform your employee experience.
- **Reinvent** - rethink how we work. You care about your employees and how to attract top talent.

You will also notice that sessions are split between a Business and Technical track, another way to help you select the most appropriate sessions based on your interests.

Sherif Seddik, Senior VP & Managing Director, EMEA and our special guest speaker from Red Bull Racing will kick off this action-packed event followed by short, customised sessions from our industry experts and guests.

Sessions will be available for you to 'Build Your Own Agenda' via the dedicated tab in the event platform navigation bar. This allows you to select sessions of interest and add to your personal agenda for watching at your convenience during the event day. You will receive a password for the event platform closer to the event.
