

## Trade RSP, DMA and Algo on global markets with Infront's powerful execution platform.

**Do you need access to market data, news, analytics and trading venues? You can have it all in one integrated, fast and intuitive application – the Infront Professional Terminal. It provides you with the tools, information and flexibility you need as a wealth manager or retail broker.**

With the Infront Professional Terminal and its fully integrated EMS solution, you can execute orders electronically with the counterparties and on the trading venues of your choice, across asset classes. The flexibility and modularity of the platform make it easy to set up execution capabilities to fit your needs, including retail trading on the Retail Service Provider (RSP) network.

Comprising information on more than 8 million instruments from 80 exchanges around the globe, as well as several leading specialist and OTC sources, Infront provides you with real-time market data, news and analytics together with secure electronic trading all on one flexible platform.

### Multi-asset trading

The Infront Professional Terminal and EMS Solution provides access to more than 600 brokers on exchange traded products. Trade multi-asset classes and get real-time control of all trading activity in the Infront trading blotter. Functionality includes DMA, Care or Algo orders, in addition to program trading, basket trading, uploading of orders and click-trading features.
