

## **Indiaspora's Global AI Summit - Wednesday 26 February 2025**

**Venue: Museum Of The Future, Sheikh Zayed Road, Trade Centre 2, Dubai**

Against the backdrop of Stargate's commitment of \$500 billion to revolutionize American AI infrastructure, Reliance aiming to develop the world's largest 3GW data center in India, and Deepseek's emergence with powerful open-source models, a crucial question emerges: How will other countries adapt to keep up in the global AI race?

[Indiaspora](#) in partnership with the [Dubai Future Foundation](#) invites you to our Global AI Summit being held at the iconic [Museum of the Future](#) where we will convene visionaries from Silicon Valley, the UAE, India and other countries to address this pivotal moment in tech history. This collaboration exemplifies our commitment to fostering cross-cultural innovation hubs where emerging technologies can be explored, debated, and shaped for the benefit of humanity.

With the U.S. deploying \$100 billion immediately in AI infrastructure, assisted, in part, by an investment from tech investor MGX in the United Arab Emirates, other nations are racing to establish their technological sovereignty and competitive edge.

Join industry leaders like [Anurag Banerjee](#) (Quilt.AI), [Radha Ramaswami Basu](#) (iMerit), [Navin Chaddha](#) (Mayfield), [Anurag Jain](#) (Perot Jain) and [Sindhu Gangadharan](#) (SAP) as they explore:

- Strategic responses to America's AI acceleration
- Cross-border collaboration opportunities
- Innovation ecosystems beyond Silicon Valley
- The role of emerging tech hubs in the UAE and India

In a world where America and India are setting unprecedented investment benchmarks in AI, this summit promises to provide essential insights into how global markets can maintain competitiveness through strategic partnerships and innovative approaches.

Indiaspora looks forward to advancing its work from its [first](#) and [second](#) AI summits from Palo Alto, USA to the global stage in this futuristic locale in the United Arab Emirates.
