

## Programme Friday 4<sup>th</sup> of July 2025

European Veterinary Society for Small Animal Reproduction 3rd - 5th of July 2025

8.00-9.00	Registrations – Infante Hall			
9.00-9.10	Opening ceremony – Infante Hall			
9.10-10.00	<b>Keynote 1</b> - <u>Alain Fontbonne</u> -Feline reproduction: what do we know and what don't we know yet? Infante Hall			
10:00-10:50	Keynote 2 - Daniel Combarros - When reproduction meets dermatology Infante Hall			
10.50-11.30	Coffee break, Poster and Sponsor Exhibition (including 5 student poster presentation			
11:30-13:00	Parallel sessions			
	Infante Hall	Room Dona Maria	Room Dom Luis	
11.30-12.00	Parallel session 1 : Neonatology	Parallel session 2 : Student competition	Parallel session 3 : Female physiology	
	<u>Ana Luisa Lourenço</u> - Nutrition and puppy growth: from weaning until adulthood	<u>Charly Pignon</u> - Laparoscopic reproductive surgery in exotic animals	Ana Martins-Bessa & Luís Montenegro - Ovarian ageing: use of animal models	
12.00-12.15	Jasmine Fusi - Factors associated to survival at 24 hours in German Shepherd and Dobermann newborn puppies: not only birthweight and Apgar score (6474)	Natalia Sowinska -Inguinal hernia during pregnancy in a bitch – successful surgery and neonatal survival (6168)	Sroisuda Chotimanukul - Does uterine aging process influence PTGS2 expression in canine endometrium? (6456)	
12.15-12.30	Aurélien Grellet - Description of a Golden Retriever Cohort: an open science study to better characterize the first days of life and their short, medium and long-term consequences in dogs (7104)	<u>Stefano Spada</u> - Development of an ultrasonographic scoring system for the assessment of cystic endometrial hyperplasia in dogs: a pilot study (6368)	<u>Ida Hallberg</u> - Studies on the ovarian function in female Bernese mountain dogs (7127)	
12.30-12.45	Lou Timmerman - Relationship between hygiene practices in breeding catteries and kennels on gastrointestinal parasite infestation (7018)	Lorenza Scala Ultrasonographic fetal gender determination in cats (7151)	<u>Johannes Herbel</u> - A case of pseudoplacentation endometria hyperplasia in a dog: morphological features and sex steroid receptor distribution (7141)	
12.45-13.00	<u>Hélène Jainek</u> - Too Young to Be Sweet: A Rare Case of Type I Diabetes Mellitus in a Kitten (6955)		<u>Lluis Ferre-Dolcet</u> - Incidence of Progesterone-mediated conditions after deslorelin treatment in female cats: A multicentric study (A2)	
13.00-14.00	Lunch, Poster and Sponsor Exhibition			
14:00-15:00	<b>General Assembly-Infante</b>	hall		

15.00-16:30	Parallel sessions			
	Infante Hall	Room Dona Maria	Room Dom Luis	
15.00-15.30	Parallel session 1 : Male fertility	Parallel session 2 : Control of Reproduction	Workshop : Clinical management of female reproductive problems	
	Marc Yeste - Potential relevance of sperm and seminal plasma components for fertilization and early embryo development in small animals	Gonçalo da Graça Pereira To neuter or not to neuter? That is the question dealing with "aggression" diagnosis and other behavioral problems"	<u>Hasan Sontas &amp; Stefano</u> <u>Romagnoli</u> - Canine pyometra and dystocia: Surgical versus medical approach	
15.30-15.45	Mariela Grisolia-Romero Effect of two artificial photoperiods on testicular proliferation and apoptosis and reproductive related hormones (6440)	<u>Aitana Comellas Pons</u> - Urogenital pathologies associated with early spaying in bitches (6293)	Workshop discussion	
15.45-16:00	<u>Yuliya Sudbina</u> -Testicular FNA in Male Dogs with Infertility (7092)	Sarioglu S Diagnostic and Clinical Insights into Ovarian Remnant Syndrome in Cats: A Focus on AMH and AFC (6545)	<u>Sara Pejičić -</u> A case of foreign body-induced vaginitis in a spayed bitch (6530)	
16.00-16:15	<u>Henriette Greiner</u> - Treatment with a deslorelin-slow-release implant alters protein expression of androgen receptor and prostaglandins in the canine epididymis (7087)	<u>Bruna Mendes</u> - Hormonal Evolution and Changes in Different Serum Markers After Gonadectomy and/or Deslorelin Implant Administration in Adult Male Dogs During a 6- Month Period (7148)	I. Jerónimo -Atypical Glandular Proliferation Suggestive of Endometrial/Vaginal Adenocarcinoma in a Labrador Retriever (A11)	
16:15-16.30	Lisa Marie Ahrens -The microbiome of the ejaculate of male breeding dogs: A comparative analysis of culture- dependent and culture- independent analytical methods (6439)		<u>Eleni Elekidou</u> -Therapeutic management of canine transmissible venereal tumour: case series (6520)	
16.30-17.00	Coffee break, Poster and Sponsor exhibition			
17.00-18.00	Round Table – Should we breed this dog or not?			
20.00-23.00	Gala Dinner			

9:00-9:50	puppy Infante Hall	· · ·	natology: a healthy gut is a healthy			
9:50-10:40	<b>Keynote 4</b> - <u>Sabine Schaefer-Somi</u> - A journey through feline pregnancy –insights and mysteries Infante Hall					
10:40-11:10	Coffee break, Poster and	Coffee break, Poster and Sponsor exhibition (including 5 student poster presentations)				
11:10 -12:40	Parallel sessions					
	Infante Hall	Room Dona Maria	Room Dom Luis			
11:10-11:40	Parallel session 1 : Male biotechnology	Parallel session 2 : Oncology	Parallel session 3 : Education and reproductive management			
	Jane Morrell - Alternatives to antibiotics in semen extenders: a "One health" approach	<u>Giovanni Burrai,</u> Joaquim Henriques & <u>Nazaré Cunha -</u> An integrated approach on Mammary Tumors - From Clinician to Pathologist	<u>Maria da Graça Lopes</u> - Training Small Animal (dog & cat) Reproductive Techniques Using Low-Cost Models			
11:40-11:55	Vinícius W. Silva -The pellet method as an alternative for canine sperm cryopreservation (7107)	Daniela De Felice - Computed Tomography (CT) Features of Canine Mammary Tumours – A Retrospective Study (7041)	Sebastian Arlt - Teaching Tip - A Student-Centered Approach to teach Ethics in Small Animal Breeding (6683)			
11:55-12:10	Karolina Kotas -Effect of the ABCA1 inhibitor Probucol on post thaw characteristics of dog spermatozoa (7098)	Thais de Moraes Silva - Proteomic approach of formalin fixed paraffin embedded tissue of canine breast inflammatory carcinoma (7068)	Chiara Milani - Antimicrobials resistance profile of Escherichia coli and Staphylococcus pseudintermedius isolated from healthy breeding bitches in Northern Italy (7128)			
12:10-12:25	<u>Valeria Vurchio</u> - Survival and integrity of domestic cat testicular tissue after short-term culture (6519)	<u>Eleni Elekidou -</u> Anterior colpotomy for the excision of a vaginal mass in a dog: a case report (6521)	Pauline Champommier - Double mating in pure-breed dogs in France: survey on breeders' motivations and practices (6405)			
12:25-12:40	Koray Tekin - Determination of the efficacy of various markers in cat spermatogonial stem cells (6518)	Kathrine Thejll Kirchhoff - An uncommon sex-cord stromal tumor in a spayed bitch - a case report (5987)	Pauline Champommier - Effect of double mating on prolificacy in pure- breed dogs in France: retrospective study on data collected between 2020 and 2023 by the French Kennel Club (6406)			
12.40-14.20	Lunch, Poster and Sponsor Exhibition					
14.20-15.50	Parallel sessions					
	Infante Hall	Room Dona Maria	Room Dom Luis			
14.20-14.50	Parallel session 1 : Pregnancy	Parallel session 2 Diagnostics	Parallel session 3 Female biotechnology			
	<u>Sylvie Chastant</u> - Substances to avoid during pregnancy and lactation: ensuring maternal and neonatal	<u>Giovanni</u> <u>Burrai, Joaquim Henriques</u> <u>&amp; Nazaré Cunha -</u> An integrated approach on Mammary Tumors - Case	<u>Martina Colombo</u> - Three- dimensional systems for cat oocytes and follicles: advances in culture and cryopreservation			
	health in carnivores	studies
