

## Programme Friday 4th of July 2025

8.00-9.00	Registrations – Infante Hall			
9.00-9.10	Opening ceremony – Infante Hall			
9.10-10.00	<b>Keynote 1</b> - Alain Fontbonne -Feline reproduction: what do we know and what don't we know yet? Infante Hall			
10:00-10:50	<b>Keynote 2</b> - <u>Daniel Combarros</u> - When reproduction meets dermatology Infante Hall			
10.50-11.30	Coffee break, Poster and Sponsor Exhibition (including 5 student poster presentations)			
11:30-13:00	Parallel sessions			
	Infante Hall	Room Dona Maria	Room Dom Luis	
11.30-12.00	Parallel session 1 : Neonatology	Parallel session 2 : Student competition	Parallel session 3 : Female physiology	
	Ana Luisa Lourenço - Nutrition and puppy growth: from weaning until adulthood	Charly Pignon - Laparoscopic reproductive surgery in exotic animals	Ana Martins-Bessa & Luís  Montenegro - Ovarian ageing: use of animal models	
12.00-12.15	Jasmine Fusi - Factors associated to survival at 24 hours in German Shepherd and Dobermann newborn puppies: not only birthweight and Apgar score (6474)	Stefano Spada - Development of an ultrasonographic scoring system for the assessment of cystic endometrial hyperplasia in dogs: a pilot study (6368)	Sroisuda Chotimanukul - Does uterine aging process influence PTGS2 expression in canine endometrium? (6456)	
12.15-12.30	Aurélien Grellet - Description of a Golden Retriever Cohort: an open science study to better characterize the first days of life and their short, medium and long-term consequences in dogs (7104)	Natalia Sowinska -Inguinal hernia during pregnancy in a bitch – successful surgery and neonatal survival (6168)	Ida Hallberg - Studies on the ovarian function in female Bernese mountain dogs (7127)	
12.30-12.45	Lou Timmerman - Relationship between hygiene practices in breeding catteries and kennels on gastrointestinal parasite infestation (7018)	Lorenza Scala - Ultrasonographic fetal gender determination in cats (7151)	Johannes Herbel - A case of pseudoplacentation endometrial hyperplasia in a dog: morphological features and sex steroid receptor distribution (7141)	
12.45-13.00	Hélène Jainek - Too Young to Be Sweet: A Rare Case of Type I Diabetes Mellitus in a Kitten (6955)		Lluis Ferré-Dolcet - Incidence of Progesterone-mediated conditions after deslorelin treatment in female cats: A multicentric study (A2)	
13.00-13.30	Lunch, Poster and Sponsor Exhibition			
13:30-15:00	General Assembly - Infante hall			

15.00-16:30	Parallel sessions			
	Infante Hall	Room Dona Maria	Room Dom Luis	
15.00-15.30	Parallel session 1: Male fertility	Parallel session 2: Control of Reproduction	Workshop: Clinical management of female reproductive problems	
	Marc Yeste - Potential relevance of sperm and seminal plasma components for fertilization and early embryo development in small animals	Gonçalo da Graça Pereira - To neuter or not to neuter? That is the question dealing with "aggression" diagnosis and other behavioral problems"	Hasan Sontas & Stefano Romagnoli - Canine pyometra and dystocia: Surgical versus medical approach	
15.30-15.45	Marcela Faya -Effect of two artificial photoperiods on testicular proliferation and apoptosis and reproductive related hormones (6440)	Aitana Comellas Pons - Urogenital pathologies associated with early spaying in bitches (6293)	Workshop discussion	
15.45-16:00	Yuliya Sudbina -Testicular FNA in Male Dogs with Infertility (7092)	Sude Sarioglu - Diagnostic and Clinical Insights into Ovarian Remnant Syndrome in Cats: A Focus on AMH and AFC (6545)	Sara Pejičić - A case of foreign body-induced vaginitis in a spayed bitch (6530)	
16.00-16:15	Henriette Greiner - Treatment with a deslorelin-slow-release implant alters protein expression of androgen receptor and prostaglandins in the canine epididymis (7087)	Maria Pereira -Partially and Non-respondent Deslorelin Treatments in Female and Male Cats (6325)	Inês Jerónimo -Atypical Glandular Proliferation Suggestive of Endometrial/Vaginal Adenocarcinoma in a Labrador Retriever (A11)	
16:15-16.30	Lisa Marie Ahrens -The microbiome of the ejaculate of male breeding dogs: A comparative analysis of culture-dependent and culture-independent analytical methods (6439)	Bruna Mendes - Hormonal Evolution and Changes in Different Serum Markers After Gonadectomy and/or Deslorelin Implant Administration in Adult Male Dogs During a 6- Month Period (7148)	Eleni Elekidou -Therapeutic management of canine transmissible venereal tumour: a case series (6520)	
16.30-17.00	Coffee break, Poster and S	Coffee break, Poster and Sponsor exhibition		
17.00-18.00	Round Table – Should we breed this dog or not?			
20.00-23.00	Gala Dinner			

## Programme Saturday 5<sup>th</sup> of July 2025

	Keynote 3 - Maja Zakosek Pipa puppy Infante Hall				
9:50-10:40	<b>Keynote 4</b> - <u>Sabine Schaefer-Somi</u> - A journey through feline pregnancy –insights and mysteries <u>Infante Hall</u>				
10:40-11:10	Coffee break, Poster and Sponsor exhibition (including 5 student poster presentations)				
11:10 -12:40	Parallel sessions				
	Infante Hall	Room Dona Maria	Room Dom Luis		
11:10-11:40	Parallel session 1: Male biotechnology	Parallel session 2: Oncology	Parallel session 3: Education and reproductive management		
	Jane Morrell - Alternatives to antibiotics in semen extenders: a "One health" approach	Giovanni Burrai, Joaquim Henriques & Nazaré Cunha - An integrated approach on Mammary Tumors - From Clinician to Pathologist	Maria da Graça Lopes - Training Small Animal (dog & cat) Reproductive Techniques Using Low-Cost Models		
11:40-11:55	Vinícius W. Silva -The pellet method as an alternative for canine sperm cryopreservation (7107)	Daniela De Felice - Computed Tomography (CT) Features of Canine Mammary Tumours – A Retrospective Study (7041)	Sebastian Arlt - Teaching Tip - A Student-Centered Approach to teach Ethics in Small Animal Breeding (6683)		
11:55-12:10	Karolina Kotas -Effect of the ABCA1 inhibitor Probucol on post thaw characteristics of dog spermatozoa (7098)	Thais de Moraes Silva - Proteomic approach of formalin fixed paraffin embedded tissue of canine breast inflammatory carcinoma (7068)	<u>Chiara Milani</u> - Antimicrobials resistance profile of Escherichia coli and Staphylococcus pseudintermedius isolated from healthy breeding bitches in Northern Italy (7128)		
12:10-12:25	<u>Valeria Vurchio</u> - Survival and integrity of domestic cat testicular tissue after short-term culture (6519)	Eleni Elekidou - Anterior colpotomy for the excision of a vaginal mass in a dog: a case report (6521)	<u>Pauline Champommier</u> - Double mating in pure-breed dogs in France: survey on breeders' motivations and practices (6405)		
12:25-12:40	Koray Tekin -Determination of the efficacy of various markers in cat spermatogonial stem cells (6518)	Kathrine Thejll Kirchhoff - An uncommon sex-cord stromal tumor in a spayed bitch - a case report (5987)	Pauline Champommier - Effect of double mating on prolificacy in pure-breed dogs in France: retrospective study on data collected between 2020 and 2023 by the French Kennel Club (6406)		
12.40-14.20	Lunch, Poster and Sponsor Ex	hibition			
14.20-15.50	Parallel sessions				
	Infante Hall	Room Dona Maria	Room Dom Luis		
14.20-14.50	Parallel session 1: Pregnancy	Parallel session 2 Diagnostics	Parallel session 3 Female biotechnology		
	Sylvie Chastant - Substances to avoid during pregnancy and lactation: ensuring maternal and neonatal health in carnivores	Giovanni Burrai, Joaquim Henriques & Nazaré Cunha - An integrated approach on Mammary Tumors - Case studies	Martina Colombo - Three- dimensional systems for cat oocytes and follicles: advances in culture and cryopreservation		

44-44-4-	Ciulia Balletta	Kurt Do Cramor	Makarrata Oshota What makes
14.50-15.05	Giulia Ballotta - Hypoluteinism: Effects of	Kurt De Cramer - Usefulness of vaginal	Małgorzata Ochota - What makes the difference - ultrastructure of in
	Progestin Therapy and	speculum examinations in	vivo and in vitro matured feline
	Clinical Implications (7103)	the bitch (7163)	oocyte (6459)
15.05-15.20	Bodil Strom-Holst -Canine	Claudia Bracco -	Andrea Priego-González - Toward
15.05-15.20	serum N-glycosylation	Ultrasonographic and	optimal cat oocyte transport:
	changes during infection and	elastographic assessment	impact of retrieval and storage
	pregnancy (7110)	of cervical changes	conditions on in vitro maturation
	programo, (r ===)	throughout the canine	(7136)
		oestrous cycle (6335)	(* == = )
15.20-15.35	Sandra Vazquez -Comparative		Marie Sophie Greiling-Mackert -
	values of serum progesterone		Effects of passaging and
	in elective cesarean section in	appearance of the vagina	cryopreservation on canine uterine
	bitches: a retrospective study	in 17 healthy dogs	myocytes in adherent cell culture
	(7055)	according to the estrous	(6508)
		cycle: prepubic and	
		perineal approaches	
		(5375)	
15.35-15.50	Smadar Tal -Association	<u>Anna Bonnevie</u> - Canine	
	between circulating	brucellosis unmasked: a	
	adipokines concentrations in	serological study	
	canine pregnancy and	comparing analytical	
	neonatal birth weight and	methods (6417)	
45 50 46 30	litter size (6847)	and avhibition	
15.50-16.20	Coffee break, Poster and Spor Parallel sessions	isor exhibition	
16.20-17.50	Parallel sessions		
	Infante Hall	Room Dona Maria	Room Dom Luis
	Parallel session 1:	Parallel session 2:	Parallel session 3:
16 20 16 50	Parallel session 1: Clinical cases	Parallel session 2: Technology	Parallel session 3: Prostate
16.20-16.50	Parallel session 1: Clinical cases Paulo Borges - Management	Parallel session 2: Technology Helio Autran de Morais	Parallel session 3: Prostate Wojciech Nizanski -Treating benign
16.20-16.50	Parallel session 1: Clinical cases Paulo Borges - Management of chronic endometritis in	Parallel session 2: Technology Helio Autran de Morais - Al and vets in	Parallel session 3: Prostate Wojciech Nizanski -Treating benign prostatic hyperplasia in the
