

CORAL GARDENERS

GLOBAL SUSTAINABLE TOURISM CONFERENCE
2025

“TOURISM AND ENVIRONMENTAL REGENERATION”

WE ARE CORAL GARDENERS

“A NEW GENERATION OF OCEAN
GUARDIANS BASED IN THE
PACIFIC, RESTORING REEFS,
PROTECTING BIODIVERSITY.”

“RECONNECTING PEOPLE WITH THE
OCEAN THROUGH ACTION, AWARENESS,
AND HOPE ONE CORAL AT A TIME. “

An underwater photograph showing a diver's hand reaching towards a vibrant pink and orange coral reef. The scene is viewed through a dark, curved frame, possibly a scuba tank or a viewing port, with the word "EQUATOR" visible on the right side. The water is clear blue, and small fish are visible in the background.

**WE REVOLUTIONIZE OCEAN CONSERVATION
AND CREATE A GLOBAL MOVEMENT
TO RESTORE CORAL REEFS.**

A NEW WAY OF EDUCATING

HOW CORAL GARDENERS XPERIENCE IS RESHAPING
CONSERVATION THROUGH HANDS-ON TOURISM

Xperience

In 2024, we launched CG Xperience, our ecotourism program designed to educate guests and tourists by offering hands-on opportunities to participate in coral conservation and leave the island better than they found it.

From Mo'orea to Fiji, we're opening the doors to what we do every day and inviting others to experience it with us. Guests hop on our boats,

ECOTOURS

dive into reef restoration, clean coral nurseries, and replant coral fragments all alongside our local teams.

This program not only funds our mission but builds awareness and advocacy. When people dive in, they develop a deeper sense of stewardship that inspires climate action beyond the tour, creating a ripple effect of impact.
