Our nature

Trentino: past, present, and future

Perhaps more than ever, the word "**authenticity**" demands justice. *Authentic*—meaning unaltered, unadorned, not reconstructed or polished. *Authentic*, as in something that stands on its own, that simply is. To speak of the authenticity of the mountains and their people is to look deeply and see the essence of things, at the very heart of their homes.

An unsustainable mountain is an unwelcoming mountain, where life withers and disappears. This is why Trentino is a land that is **sustainable by nature, by culture, and by principle**. Beyond metaphor, nothing in the mountains can survive without care—for our environment, our land, our neighbors, and our guests. Here, we strive to share the story of how *we take care*. Together, let us preserve these places—for us, for you, and for generations to come.

NATURE IS NOT A PLACE TO VISIT. IT IS HOME.

GARY SNYDER

Nel Garda Trentino ci crediamo fermamente e scegliamo ogni giorno di prenderci cura della nostra destinazione. È una scelta necessaria, per rendere il territorio in cui viviamo un luogo bello da vivere, a lungo termine o solo per qualche giorno, oggi e in futuro.

Vuoi aiutarci anche tu?
BASTA POCO PER FARE LA DIFFERENZA.

Im Garda Trentino glauben wir fest daran und entscheiden uns jeden Tag dafür, uns um unsere Destination zu kümmern. Diese Entscheidung ist notwendig, um die Region, in der wir leben, zu einem schönen, lebenswerten Ort zu machen - heute und auch in Zukunft. Egal, man länger oder nur ein paar Tage hier verweilt.

Möchtest du uns auch helfen?
**ES BRAUCHT NICHT VIEL,
UM ETWAS ZU BEWEGEN.**

We firmly believe this, here in Garda Trentino, and we work hard every day to take care of our region. It is a necessary choice to make the place where we live as beautiful as possible so that it can be enjoyed all life long or even just for a few days, now and in the future.

Would you like to help us, too?
IT TAKES LITTLE TO MAKE A DIFFERENCE.

Riduzione di rifiuti

Abbandonare rifiuti nell'ambiente causa molti impatti negativi. Non solo si va a perdere il valore estetico di un territorio, ma la dispersione delle sostanze di cui sono composti danneggia l'ambiente e gli animali che lo abitano. Durante le vostre camminate ed escursioni, portate sempre con voi tutti i rifiuti che producete (confezioni di plastica, bucce di frutta, ecc...) e smaltiteli presso il vostro alloggio. La cosa più importante, però, è agire alla radice. Evitando di acquistare oggetti superflui, produrrete meno scarto e, forse, scoprirete una forma di vacanza più vera ed essenziale!

Müll vermeiden

Müll achtlos in der Umwelt zurückzulassen hat viele negative Auswirkungen. Neben dem Verschandeln der Natur, schaden die Abfälle und ihre schädlichen Stoffe der Umwelt und den Tieren. Daher gilt: Das, was ihr an Abfällen mit auf den Berg nehmt (Plastikverpackungen, Obstschalen usw.), bringt ihr bitte auch wieder runter – und entsorgt es dann ordnungsgemäß in eurer Unterkunft. Noch besser ist es, das Problem an der Wurzel anzupacken: Indem ihr auf den Kauf überflüssiger Dinge verzichtet, verursacht ihr weniger Müll und entdeckt so womöglich eine wahrhaftigere und ursprünglichere Form des Urlaubens!

Waste reduction

Carelessly leaving litter in the environment has many negative effects. As well as being a blight on the landscape, waste and the harmful substances it is made from can harm the environment and wildlife. For this reason, it is important to ensure that anything you take onto the

Der Müll, den wir achtlos wegwerfen, kommt zu uns zurück – im Wasser und in der Nahrung. Denn schaden wir der Natur, schaden wir letztendlich uns selbst.

The waste that we carelessly throw away comes back to us – in our water and in our food. If we harm nature, ultimately we harm ourselves.

Questi sono gli anni di cui la foresta ha bisogno per eliminare i rifiuti.

This is how long it takes for the forest to eliminate waste.

Plogging, la raccolta divertente

Per preservare la bella natura che ci circonda tutto l'aiuto è ben accetto! Da qualche anno si sta diffondendo l'abitudine di portare con sé, durante le escursioni, un sacchetto e dei guanti con cui raccogliere eventuali rifiuti che si trovassero abbandonati. Per chi volesse partecipare a questa bella iniziativa, l'ufficio turistico mette a disposizione un kit per plogging e un piccolo gadget come ringraziamento.

Plogging: Wandern und der Umwelt Gutes tun

Um die schöne Natur, die uns umgibt, zu erhalten, ist jede Hilfe willkommen! Seit einigen Jahren ist es üblich, auf Wanderungen eine Tasche und Handschuhe mitzunehmen, um den hinterlassenen Müll aufzusammeln. Für diejenigen, die sich an dieser schönen Initiative beteiligen möchten, stellt das Tourismusbüro als Dankeschön ein Plogging-Set und ein kleines Gadget zur Verfügung.

Plogging – helping the environment as you hike

Any helping hand that is offered will be gratefully accepted when it comes to preserving our beautiful surroundings! In recent years, "plogging" has become an increasingly popular sport whose fans go hiking equipped with a rubbish bag and gloves, picking up any litter that they find along the wayside. Anyone wishing to take part in this praiseworthy initiative can obtain a plogging kit and a small gadget as a thank you from the tourist information office.
