

Funding Formula 1

Los Angeles Regional Adult Education Consortium

Presented By: Michele Stiehl and Justin Gorence

For: CAEP Summit October 27, 2020

After two years of discussions, research, and flying spreadsheets, California's largest consortium, LARAEC, adopted Funding Formula One. If you are having discussions in your consortium about student-centered or equitable funding distributions, it may be helpful to hear about our journey to the finish line. We will share our pit stops and pitfalls along the way, and what the future holds. We will share our research, considerations, limitations, discussion points, challenges, reasoning surrounding 6 created funding formulas, and where we might go next. This discussion may help jumpstart conversations in your own consortium, or bring up areas that you have not thought about.
