

# Bylaws: The Ultimate Driving Machine

## Los Angeles Regional Adult Education Consortium

Presented By: Michele Stiehl and Justin Gorence

For: CAEP Summit October 28, 2020

Has your consortium considered bylaws, but not sure where to start? Are your consortium decisions spread out among years of meeting minutes? As people and leadership change, it is more and more necessary to have a written institutional memory. Bylaws provide that place for documenting decisions, how to work collaboratively, and provide structure in times of uncertainty or conflict. In this session, we will share the process LARAEC, California's largest consortium, used for developing its bylaws.
