

FROZEN VEGETABLES & FRUITS

QUICK FACTS

- Türkiye's exports **1.1% of the world's** frozen fruits and vegetables.
 - With an average annual production of **225 thousand tons**, Türkiye is the **fourth-largest spinach producer** in the world.
- Nearly **70%** of frozen fruit and vegetable production in Türkiye is **exported**.

NATIONAL ADVANTAGE

Matters such as the climatic conditions and ecological features, young population structure, the closest quality of frozen products to freshness, and the use of frozen products produced from organic foods have increased in recent years.

Türkiye's suitable climatic conditions have significant advantages in terms of raw materials for the production of the frozen fruit and vegetable sector. These producers have reached high levels in sales in the past few years as a result of being export-oriented.
