

JAMS & HONEY

QUICK FACTS

- In the agricultural areas of Türkiye, farming of all kinds of fruits is possible at altitudes ranging from low to high. It is the most reliable food supplier in the world thanks to the climate diversity provided by its geographical location.
 - Türkiye is the **largest producer of pine honey in the world.**

NATIONAL ADVANTAGE

Türkiye is one of the few countries in the world that has long harvest periods for fresh fruit products due to its geography and it being surrounded by seas on three sides.

Türkiye is the second-largest producer of honey in the world and is ranked third for bee colonies. An estimated twenty percent of all native honeybee ecotypes exist in Anatolia.
