

OTHER VEGETABLE OILS

QUICK FACTS

- **Fifty percent** of vegetable crude oil production in our country comes from **sunflower**.
- Sunflower holds the first place in the production of oil plants in Türkiye.

NATIONAL ADVANTAGE

In the world and in Türkiye the oilseeds, vegetable oils, and products sector have gained great momentum in the last twenty-five years. Sunflower, which holds the first place in the production of oil plants in our country, can grow in many places, especially in the Thrace-Marmara, Aegean and Black Sea regions.
