the industry leader in saddle tank systems

Demco provides many application options with our "Quick Tach" & "SideQuest" style tanks. These saddle tanks are made with durable, high quality mounting brackets and excellent visibility for the tractor operator.

SIDEQUEST TRACTOR MOUNT SPRAYERS

Demco SideQuest saddle tanks systems are the industry leader. The SideQuest mounting design and location provide excellent operator visibility, reduce stress to the tractor, and deliver performance for your farming operation. SideQuest is the product to consider when applying fertilizer while planting. Add a Demco 3 point mounted boom for efficient, cost effective spraying. Demco SideQuest is a high quality, unique product designed to help improve efficiency and effectiveness in the field.

700 GALLON - 40" ROW SPACING 1200 GALLON

- Two 350, 500, or 600 gallon high capacity side mount tanks with 16" fillwell - delivers excellent front to rear weight distribution ratio (25% front: 75% rear)
- Extended rear axle spindle mount allows weight to be shifted to the rear relieving stress on the tractor's front axle and chassis
- Units will fit on tractors with or without front duals (rear duals are required)
- Tanks are mounted longitudinal for superb visibility
- Transport width - 30" Row Spacing (16'11") when straddle duals are set on 120" centers
- Transport width - 36" Row Spacing (18' 11") when straddle duals are set on 144" centers
- Transport width - 40" Row Spacing (20'3")
- Flanged fittings provide leak free plumbing

TRACK TRACTOR MOUNTS

- Two 350 or 500 gallon high capacity side mount tanks with 16" fillwell
- Tanks are mounted longitudinal for superb visibility

4WD ARTICULATING TRACTOR MOUNTS

- Two 600 gallon high capacity side mount tanks with 16" fillwell
- Better visibility - tanks are mounted longitudinal for superb visibility
- 21-23" of ground clearance
- 17'-2" transport width

QUICK TACH SPRAYERS

Quality, strength, durability – these are the words used when talking about Demco saddle tank systems. Demco is an experienced provider of saddle tanks in the farming industry. **When you are considering new saddle tanks – think Demco!**

4WD ARTICULATING TRACTOR UNITS

- Two 300 gallon tanks with dual jet agitation, sump, molded sight gauge and 12" fillwell with no-splash cover
- High clearance brackets include saddles, tank bands, carrier brackets and all necessary bolts for a complete installation
- 22-25" of ground clearance
- Transport width: 15', 16'9" for wide frame

INLINE TANK UNITS FOR MECHANICAL FRONT WHEEL DRIVE TRACTORS

- 300 gallon capacity with dual jet agitation, sump, molded sight gauge and fillwell with no-splash cover
- Poly baffle
- High clearance brackets allow for approximately 30" of ground clearance
- Transport width: 16'6"
