

District-Wide Solution to Manage All School Events

- View ticket sales data for all events in your school district
- See ticket sales, revenue and event attendance in real time
- Assign internal codes to track departments and events
- Schedule automatic deposits to your district bank account
- Receive immediate access to ticket revenue through Stripe

stripe

View All Real-Time Event Information in One Dashboard

HomeTown's event management system is the only district-wide solution that provides district officials with real-time ticket sales, deposits and event attendance across the entire district. Our cloud-based box office centralizes event management by school, department and event, automates the billing process and schedules daily, weekly or monthly deposits for ticket sales revenue into the accounts dedicated by the district, saving endless hours of manual reporting for each school.

Cloud-based Box Office

Manage all school district events through one central online location.

Real-Time Reporting

View real-time event and ticket sales reports for the entire school district.

Payment Processing

Process secure, PCI-compliant credit card payments via our partner Stripe.

User-Level Permissions

Assign permissions for staff to view and edit data and volunteers to scan tickets.

See Ticket Sales Data for Every Event

HomeTown provides school districts with real-time visibility into ticket sales data for every event in the district. Easily access ticket sale summaries for each event, aggregated from online sales, on-site POS sales and cash transactions and filter reports by date, school, team, department or venue.

Assign User-Level Permissions

HomeTown allows administrators to assign user-level permissions to their staff to control who has access to specific departments and the ability to make changes to specific data, while granting volunteers limited access to the HomeTown Gate app to scan tickets for fans to attend specific events.
