

ON DEMAND SESSIONS

All on demand sessions are available to view from 09:30 Tuesday 2nd February.

SWIMMING POOL LINERS – HOW THEY ARE MADE AND WHAT CAN GO WRONG A guide for pool engineers to troubleshoot problems before and after a liner is fitted. Will Dando, FISPE – Plastica Ltd	ON DEMAND
IMPORTANCE OF MICROBIOLOGICAL MONITORING FOR HOT TUBS (Spa-pool systems – HSG 282) Conversations regarding microbiological monitoring increased significantly with the publication of HSG 282 in 2017. The testing of water quality, using chemical and microbiological monitoring, is an essential part of the treatment regime. Water in a hot tub should be free from substances that can cause irritation and infectious microbiological agents at any level that could pose a risk to health. David Ramsden – Complete Pool Controls Ltd	ON DEMAND
ENERGY EFFICIENCY AND MICRON FILTERS Energy efficiency on pool water treatment needs to be a key element of the carbon zero agenda; Tom Devin looks at energy matters and some of the criteria behind the Sport England guidance on micron filters. Tom Devin – Devin Consulting	ON DEMAND
WHAT CAN WE LEARN FROM POOL AND SPA ASSOCIATIONS AROUND THE WORLD? The answer is a lot! This session explores how the UK industry is not only offering ideas to help others, but is also receiving details of initiatives that can be of benefit to companies based in the British Isles. Chris Hayes – The BSPF	ON DEMAND
COMMON WATER TESTING PROBLEMS IN POOLS & SPAS ISPE Past-Presidents, Howard and Colin will discuss some of the typical questions and topics a pool engineer may encounter, such as why a pool has gone green, pH control, balanced water, correct dosing and aspects of health and safety. Howard Gosling, FISPE – Pool & Spa Advice Colin Day, FISPE – Lovibond Tintometer	ON DEMAND
WATER TESTING – BACK TO BASICS Good practice and why it is now more important than ever to have a good testing regime. Colin Day, FISPE – Lovibond Tintometer	ON DEMAND
POOL COVERS – DOMESTIC & COMMERCIAL Why pool covers are so essential on any pool, indoors and out. Will Dando, FISPE – Plastica Ltd	ON DEMAND
HOW DOES BISHTA AND SPATA SUPPORT ITS RESPECTIVE MEMBERS? This presentation provides an overview of what services are on offer to members and how the trade associations work with key partners to support the industry. Chris Hayes – The BSPF	ON DEMAND
OPENING POOLS FOR THE SEASON Tips and advice on what to do on the first visit of the new season to an outdoor pool. Philip Barlow, FISPE – Philip Barlow Swimming	ON DEMAND
THE POOL WATER TREATMENT ADVISORY GROUP Who we are, what we do and how we can help you. Janice Calvert - PWTAG	ON DEMAND
HSG 282 – THE FACTS What you and your spa customers need to know. Matt Roberts, MISPE – Complete Pool Controls	ON DEMAND
HEAT PUMPS How to install a heat pump correctly and how to get the best performance out of it. Rob Renton – Certikin International	ON DEMAND
INVERX POOL HEAT PUMP WITH UNIQUE TURBOSILENCE INVERTER TECHNOLOGY Product presentation From Fairland Group Ltd. Fairland Group LTD	ON DEMAND
THE BENEFITS OF A “ONE-STOP-SHOP” HOT TUB FRANCHISE Presentation from British Hot Tubs (Award Leisure Franchise)	ON DEMAND
PUMP STRIP-DOWN & RE-BUILD A photographic demonstration of how to strip-down and re-build a pump with tips and advice along the way from an engineer’s perspective. Chris Carr, FISPE – C.C. Filtration Services Philip Barlow, FISPE – Philip Barlow Swimming Pools	ON DEMAND
HEALTH AND SAFETY UPDATE FOR THE POOL & SPA OPERATOR An annual update on legislation and cases over the past 12 months and details of any forthcoming changes. Colin Jenkinson, MISPE – Leisure Safety Training	ON DEMAND

<p>ELECTRICAL INSTALLATIONS Why did that happen? Unusual faults and what causes them. Roger Caplin, MISPE - Electair</p>	<p>ON DEMAND</p>
<p>LEAK DETECTION A video presentation, recorded live on-site, showing various methods for locating a leak in a swimming pool. Philip Barlow, FISPE – Philip Barlow Swimming Pools</p>	<p>ON DEMAND</p>
<p>FILTER STRIP-DOWN & RE-BUILD A photographic demonstration of how to strip-down and re-build a filter with tips and advice along the way from an engineer’s perspective. Chris Carr, FISPE – C.C. Filtration Services Philip Barlow, FISPE – Philip Barlow Swimming Pools</p>	<p>ON DEMAND</p>
<p>OPERATING PROCEDURES AND POLICIES FOR LEISURE OPERATORS AND SWIM SCHOOLS Topics covered include: Importance of Risk Assessments, importance of P.S.O.P’s, overview of Legionella control and responsibility, overview on COSHH, operational paperwork that tends to be forgotten, planned Preventative Maintenance, What do pool operators need? Pool Operators legal requirements. Dean Bolton – D.P. Leisure / STA Brand Ambassador Philip Weitzel – D.P. Leisure / STA Brand Ambassador</p>	<p>ON DEMAND</p>
<p>COVID AND CHLORINE Changing guidelines around swimming /spa pool water disinfection and COVID. Understanding the importance of swimming pool water chemistry and managing the efficacy of chlorine in your swimming / spa pool. Water chemistry areas to be covered include – Total Alkalinity, pH and Chlorine. Why is it important to understand water chemistry, we will also consider the other benefits related to this for both the operator and the bathers. Colin Davis – STA Brand Ambassador</p>	<p>ON DEMAND</p>
<p>LONE WORKING IN PLANT ROOMS AND ASSOCIATED AREAS IN WET LEISURE AQUATIC ENVIRONMENTS Lone workers should not be exposed to significantly more risks than employees who work with other people. Employers have a legal duty to provide facilities for first aid, training and information on plant, hazardous substances etc. They must keep records of accidents and the health of employees. This webinar will explain the basic requirements, common workplace scenarios, getting help and training. Robbie Phillips – STA Brand Ambassador</p>	<p>ON DEMAND</p>
<p>BISHTA Entries 2021 British Pool & Hot Tub Awards Take a look at the entries for BISHTA</p>	<p>ON DEMAND</p>
<p>SPATA Entries 2021 British Pool & Hot Tub Awards Take a look at the entries for SPATA</p>	<p>ON DEMAND</p>
