

BIOGRAPHY

Educator: Jorge Menchu

Jorge is a nationally-recognized industry expert and president of Automotive Electronics Services Inc. (AESwave.com). He started his automotive career at Temple High School auto shop program in Temple Texas.

While working as a technician in Fresno CA, he studied electronics. Eventually, Jorge developed training and a test lead kit to connect a generic laboratory oscilloscope to automobiles — the beginning of Automotive Electronics Services (AESwave.com) a manufacture of test accessories and reseller of test equipment.

After starting AES, Jorge quickly found himself as a highly sought after trainer speaking at many of the national trade shows discussing scopes, waveforms and electronics. He was a regular feature article contributor for Motor Magazine, Import Service and PTEN. He has also received 5 Motor Top 20 awards, Professional Tool & Equipment News Innovation Award, two UnderCar Digest Top 10 Tools awards and a Trade Association Business Publications gold award for technical article 2016.
