Our virtual tradeshow offers great networking contacts.

We have over 50 exhibitors already registered for the platform and their information is being uploaded in early January. **When a Delegate visitor clicks on a booth all information from that organization can be downloaded into your "Virtual Delegate Bag."**

The outside of the building and the lobby are animated with the avatars moving around and chatting with each other to give visitors more a feel of actual live participation.

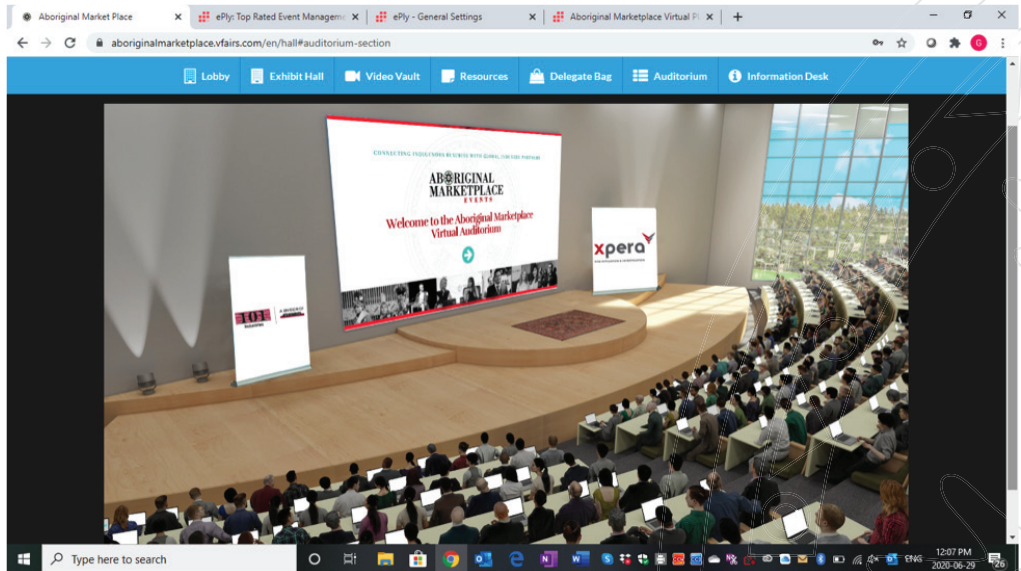

Our goal is to drive as much traffic as possible through the virtual tradeshow and auditorium daily and with our **database of over 25,000 relevant contacts** we expect the visitor statistics to be very strong.

Every First Nation in Canada and hundreds of Aboriginal business groups will be invited into the platform daily.
