

Pre-Conference Events

Mike Kincaid, associate administrator for NASA's Office of STEM Engagement is hosting OSTEM project-specific pre-conference virtual gatherings! During each session, registered conference participants will have the opportunity to meet the OSTEM leadership team, including the NASA OSTEM project managers of each project. This will be an interactive and engaging precursor to the NASA STEM: Better Together for Stakeholder Success virtual conference taking place March 18-19, 2021.

This is the only time that each grantee/awardee community will be “all together” in one virtual place. There will be no time on the conference agenda for project-specific meetings. In addition to interaction with OSTEM leadership, the conference planning team will take you on a guided tour of the immersive vFairs platform and provide tips and tricks on how to make the most of your virtual conference experience. There will be plenty of time for Q&A.

Next Gen STEM

March 10
10 a.m -12 p.m. EST

OSTEM grantee/awardee participants representing Space Grant/EPSCoR, MUREP and Next Gen STEM will receive a calendar invitation to participate in their respective pre-conference session. **If you are affiliated with more than one project, you may receive multiple calendar invites. You are only required to attend one of these sessions.** Please plan to attend the pre-conference event for your grant project. Only registered conference participants will receive a calendar invitation.

If you don't receive a calendar invitation and you are a current grantee/awardee representing one of the four OSTEM projects during the conference, please send an email to HQ-STEM-Engagement@mail.nasa.gov.
