

SkillLab

AI-based skill assessment for job matching. The Skilllab AI comes as a mobile app and makes the skills of job seekers visible, matching them to possible career pathways, education or volunteering.

Schedule a product demo via
info@skilllab.io

Mobile app

Job seekers use our app to perform a skill assessment in their native language. Flexible as to time and place.

Skill profile

Our AI creates digital overviews of job seekers' skillsets. Then matches them to the right occupations in the labour market.

Management portal

Using the portal, career counsellors administer and review skill assessments, to inform their career counselling sessions.

Benefits

Make job seekers aware of their career options

Place them into the right jobs faster

Get more time for personalized career advice

Build a CV in line with your career goals

Building a CV
