Pharmacist Continuing Education Information

CE Synergy, LLC is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education (CPE). CE Synergy has assigned a total of **15.75** hours (**1.575** CEUs) of CPE for the 16 individual application- and/or knowledge-based activities. Participants will have the opportunity to attend up to 13 of the 16 offered sessions. Due to the concurrent nature of the practice management and clinical development tracks, participants will be unable to attend all 16 sessions. From the 13 sessions they choose to attend, learners may earn up to 12 hours (1.2 CEUs) of CPE. Please refer to the agenda to view concurrent sessions. The target audience for these accredited activities is pharmacists.

CE Synergy will offer **16** live activities over a 3-day conference between June 24-26, 2021.

Additionally, CE Synergy will offer **3** on-demand, web-based activities, which are enduring activities developed from the live sessions.

The **3** on-demand recorded presentations will be offered for a period of up to 10 months via the CE Synergy website. Learners may obtain credit for either the live or the enduring version, not both, as they are the same courses offered in different formats. A CE Synergy staff member will act as a liaison between the learner and the presenter if the learner has questions about the material after the course is completed.

Live CPE

To receive CPE credit for a live program, participants must attend the session in its entirety, participate in the Audience Response Questions (ARS), and complete the associated pre- and post-tests and program evaluation forms. Learners may claim partial (participation in <13 activities) or full (participation in all 13 activities) credit.

All US-based pharmacists must supply their National Association of Boards of Pharmacy (NABP) electronic Profile Identification (ePID) number and their birth month and day (MM/DD). No credit can or will be issued without this information. Non-US-based pharmacists are not required to input this information and should put “n/a” where it is requested. To acquire an NABP ePID, go to <https://nabp.pharmacy/programs/cpe-monitor/> and follow the instructions provided.

Home-Study/Enduring

To receive CE credit for an enduring program, participants must listen to each on-demand webinar (home-study) activity in its entirety, complete the post-evaluation survey, and score a 70% or higher on a post-test. Learners may claim partial (participation in <3 activities) or full (participation in all 3 activities) credit. The enduring activities will be offered to all healthcare providers in the US and abroad who wish to participate.

Faculty and Agenda

The details of the 3-day agenda are provided below. Faculty will be updated as confirmed.

Conference Learning Objectives

After attending the 2021 ATOPP Summit, participants should be able to:

1. Outline vaccine recommendations, taking into account eligibility for live attenuated vaccines, for patients with hematologic and solid organ malignancies, as well as stem cell/immune effector cell recipients. (K)
2. Formulate a plan to advance precision medicine at the learner’s institution or healthcare system that accounts for current implementation challenges. (A)
3. Analyze the trends in growth of Board-Certified Oncology Pharmacists and PGY-2 oncology pharmacy residents and the implications of these trends on the roles of oncology pharmacists in cancer patient care. (A)
4. Identify opportunities for pharmacy professionals to support delivery of quality, equitable cancer care that accounts for social determinants impacting cancer disparities within the United States. (K)
5. Discover responses to payer-driven site of care and white bagging policies for oncology practices. (A)

6. Develop strategies to address the key performance indicators that could improve value-based care. (A)
7. Analyze healthcare system cost mitigation strategies, including the establishment and utilization of high-value therapies through decreased variation and formulary management, that incorporate opportunities for pharmacists to respond to rising drug costs. (A)
8. Develop a plan for implementing biosimilar integration for cancer centers using strategies that enhance health system utility and patient perceptions of these agents. (A)
9. Create an action plan to start, grow, fund, and collaborate a research platform based in practice. (A)
10. Identify opportunities for pharmacy professionals to manage patients receiving CAR-T therapy for current and potential pipeline indications in the inpatient and outpatient settings. (A)
11. Summarize operational changes and “new” models made in response to the COVID-19 pandemic from the perspectives of clinical pharmacy services, staffing, medication supply, PPE use, and dispensing. (K)
12. Summarize opportunities for pharmacists to maximize their impact relative to site of care, value-based care, and drug cost mitigation. (K)
13. Describe new data from AACR/ASCO regarding supportive care and adverse event management in cancer care. (K)
14. Identify opportunities for oncology pharmacy professionals to leverage real world evidence to improve patient outcomes. (K)
15. State the political climate and implications for drug pricing legislation impacting oncology practices, including prospects for biosimilars and federal action curbing PBM abuses. (K)

Program Evaluation Forms

Participants may access the pre-/post-tests and complete the program evaluations online at <https://cesynergy.com/learners-ce-portal/> or via a mobile device by scanning the QR code during or following the conference and up to 60 days from the start of the event (June 24 – August 23, 2021). Within the portal, US-based pharmacists must provide their NABP/ePID and date of birth (mm/dd) in their Profile and complete the evaluation form in its entirety. Attendees participating in part or all of the educational activities who pass the relevant post-test (70% pass score / 2 attempts), complete the overall and program-specific evaluation forms will be awarded CPE credit through

CPE Monitor® and offered a printable Statement of CPE Credit*. Once the course and conference evaluations have been completed in their entirety (see above), your certificate will be available for printing. Please follow instructions in the Learning Management System (LMS) to download and print a CPE statement for your records.

A code is required to take the course evaluations and claim credit. This will be given at the conference by the moderator and at the check-in table outside of the conference room. If you need assistance in acquiring the code, please contact April Elwood at aelwood@cesynergy.com.

IMPORTANT: The Evaluation Survey and Post-Test(s) must be completed within 60 days of the date the program starts in order to receive ACPE continuing education credit. Your NABP ePID number and date of birth (mm/dd) must be correctly provided. If incorrect information is uploaded into CPE Monitor and not rectified within 60 days of the program, a \$225 fee will be charged as mandated by the ACPE. A 6-month hard-stop policy will still apply. Any unclaimed credit with a date of participation that is 6 months and older will not be eligible for an override.

*CE Synergy, LLC is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing

pharmacy education. This statement contains information provided to NABP from the Accreditation Council for Pharmacy Education (ACPE) via CPE Monitor®. ACPE policy states paper and/or electronic statements of credit may no longer be distributed directly to learners as proof of ACPE credit. The official record of credit may be located in the learner's e-profile in CPE Monitor®.

For problems or issues related to continuing pharmacy education, please contact April Elwood at CE Synergy.
