# My Math Academy

## Accelerated Math Instruction

**A research-based, fully adaptive program that helps children build mastery of fundamental math concepts**

My Math Academy is the standards-based program that's backed by research showing that regular use can help students and teachers accelerate learning. From the creators of ABCmouse, My Math Academy blends the science of how children learn with the excitement that inspires a love of learning to help students grow a strong understanding of fundamental math concepts and skills:

- ✓ For grades pre-k through 2nd grade
- ✓ More than 30 adaptive activities covering 200+ learning objectives
- ✓ Delivers real-time performance feedback
- ✓ Aligned to Title I, ESSER, CCSS, and state learning standards

### Proven Effective in 12 Weeks

In randomized-control trials (RCTs), students using **My Math Academy** experienced significant learning gains compared to their peers who did not use the program with, as little as 45 minutes per week of regular use.\*

### Engaging, Personalized Instruction

Embedded assessments and instruction personalize learning for each student. Scaffolding gives students specific strategies for tackling the problem with practice to apply those strategies to new problems.

### Easy to Use and Flexible

Easy to use teacher and administrator dashboards provide real-time class and student data with recommended student groupings and instruction for extended learning and classroom settings.

# MyMathAcademy Provides Progress Monitoring

## Dashboards and Reporting

My Math Academy's real-time **Monitoring and Assessment System** allows teachers to monitor classroom and individual progress on each concept and skill, and track which concepts the students have mastered and where they need extra practice. Additionally, administrative-level reporting allows progress to be monitored at a school or district level.

## My Math Academy Helped Increase Math Gains in 12 Weeks\*

**My Math Academy significantly accelerates learning gains** in students' math knowledge, compared to control-group peers in as little as 45 minutes per week.
