

Secondary School Agenda

There will be two sessions everyday for secondary schools. We recommend a whole school approach to the Climate and Nature Summit. This means that your school will decide what times of the day teachers and students watch these sessions. For example, everyday throughout the week your school may decide to watch the first session at 9am and the second session at 2pm.

There is power in having collective conversations. Hence why we are encouraging all classes (1st to 6th year) in your school to watch the sessions at the same time in the day, irrespective of what subject they are in. However, any teacher or class can access the sessions at any time of the day, and also once the event has finished.
