Adventist Medical  
Evangelism Network

## MISSION

TO MOTIVATE, TRAIN, AND EQUIP SEVENTH-DAY ADVENTIST PHYSICIANS, DENTISTS, AND OTHER HEALTHCARE PROFESSIONALS TO TEAM WITH PASTORS AND MEMBERS, UNITING THE CHURCH TO RESTORE CHRIST'S MINISTRY OF HEALING TO THE WORLD, HASTENING HIS RETURN.

AMEN is a group of dedicated, Christian healthcare professionals who share a passion for health ministry and believe medical missionary work opens the door to more effectively share the gospel.

AMEN exists to inspire and equip healthcare professionals to follow Jesus example and intentionally minister to their patients physically, emotionally, and spiritually.

### What we do:

- **Conferences:** AMEN hosts a conference the last weekend of October each year. The goals of the conference are to provide inspirational messages, practical seminars, and network with peers to better equip healthcare professionals to make ministry an integral part of their careers and share the love of Jesus on a daily basis.
- **Mentorship:** AMEN's student mentorship program aims to help students incorporate Christ's method of healing as they begin their careers by connecting them with experienced AMEN health professionals who support and encourage them on their journey.
- **Podcast:** AMEN's 'Sozo' podcast is designed specifically to help students in health professions experience wholeness during their time in training so they can become healers of body and soul. We aim to address deeper issues such as: How to deal with failure, Performing for an audience of One, mentorship, and many more. Find us on Apple Podcasts, Spotify, and sozobeyond.com
- **Clinics:** AMEN partners with local churches to conduct free clinics in North America and abroad. Sacrificial giving of free medical, dental, and optical care demonstrates Christ's love in a tangible way to the community making church outreach and evangelism more effective.
- **International Chapters:** These AMEN groups extend AMEN's reach beyond health professionals in the US to include practitioners in many countries. The international chapters also host annual meetings in their respective countries.
- **Resources:** AMEN provides year-round support for providers, including tips on how to design an office so that Christ is presented in an attractive manner. Additional suggestions include placement of waiting room literature and videos, and use of an AMEN prescription pad for spiritual or health recommendations.

AMEN's journal, The Medical Evangelist, features inspirational stories and cutting edge testimonies of medical missionary endeavors.

AMEN video tutorials demonstrate how to pray with patients and engage them in spiritual conversations. AMEN is committed to providing resources for healthcare professionals to make sharing the gospel easy and effective.

The object of medical missionary work is to point sin-sick men and women to the Man of Calvary, who takes away the sin of the world. Working together as a united team — healthcare professionals, lay members, church workers and pastors — we are to encourage the sick and suffering to look to Jesus and live. During earth's final crisis hour, this will be the last work in which we are privileged to have a part.

### Is AMEN for YOU?

If you believe we are living in the last days and now is the time for each one of us to completely consecrate all that we are and all that we have to God and His service then AMEN is for YOU.

Are you ready to make a deeper commitment to Christ and His mission?

Do you want to unite with health professionals all around the world to spread the love of Jesus, His forgiveness, and the hope of His soon return? Then AMEN is for YOU.

"Being involved with AMEN has completely transformed my medical practice. I used to do outreach at my church but my job was my job and my outreach was totally separate. Since being a part of AMEN it has brought the two together so now my job as a healthcare professional has become a ministry.

The biggest thing I've realized about AMEN is that I need AMEN more than AMEN needs me. We live in a world filled with the distratures of culture and even the busyness of doing good things. I realize that I need to be challenged by my peers and by messages that inspire me to become more engaged in doing ministry every day.

If you would like to go beyond just treating the physical needs of your patients to actually ministering to their hearts and addressing their spiritual needs then AMEN is for YOU!"

- Brian Schwartz, MD

**AMEN President**

*Chief of Cardiology Kettering Health*

"As healthcare providers, we have a unique opportunity to witness to people that may have little spiritual interest. WE have the opportunity to introduce them to the Savior and His redeeming grace and transform our careers into ministry."

WE INVITE YOU TO BECOME A PART OF AMEN.
