Bridging Borders: Transforming Nursing Education Through National Collaboration

Tips for Success

- Identify a common need in a specialty area
 - New guidelines, course, accreditation standards
- Identify stakeholders and leadership for support
 - Other organizations, schools of nursing
- Engage MSN-prepared nurse educators and nursing leadership to develop and implement a plan
 - Consider providing a cost savings or ROI analysis if applicable
- Create means to cover legal concerns
- Develop a sustainability plan

Notes

Education need in my area that could benefit from a multi-organization collaboration

Potential stakeholders to engage (organizations and/or individuals)
