

It Takes a Village: Unit-Based Competencies for High-Risk, Low-Volume Skills

It Takes a Village: Unit-Based Competencies for High-Risk, Low-Volume Skills

Patient Creation

Labels

Mannikins

Session Documents

Putting it all Together

- **Informatics educators** – EPIC build
 - **Unit educators** – compiled real-life orders, created patient backstories
- **Informatics educators** – created medication scannable QR code to link to EPIC playground orders
 - **Blood bank liaison** – provided blood labels to link to EPIC playground orders
 - **Pharmacy training consultant** – created medication scannable QR code to link to EPIC playground orders
 - **Milk lab liaison** – created milk QR code to match EPIC playground orders
 - **Unit educators** – compiled QR codes to make realistic patient labels
 - **Unit administrator** – assisted with printing, cutting, and laminating patient labels
- **Unit educators** – gathered supplies from central distribution, OR expired supplies, assembled supplies to create mannikins and single skill trainers
 - **Preceptor coaches** – assisted with assembly
 - **Simulation specialists** – helped with obtaining expired supplies
 - **Central Distribution** – provided access to expired supplies
 - **OR Distribution** – provided access to supplies otherwise unusable in patient care
 - **Unit Leaders** – provided funds for supplies unable to be obtained by above channels
 - **Unit administrator** – ordered mannikins and associated supplies
- **Unit educators** – drafted documents for each desired skill
 - **Transition to Practice team** – provided feedback on document drafts
 - **Simulation specialists** – suggested edits, formatting updates, and approved for use in education
 - **Preceptors** – provided feedback on document usability
 - **Preceptor Coaches** – piloted documents with other preceptors
- **Unit educators** – created TPN paper order, blood consent form, blood requisition; created scannable patient armbands; assembled bins by skill with all labels and supplies; created binder with all session documents; created post-survey with QR code to live in binder
 - **Unit leaders** – assisted with above compilation and received education about skill validations
 - **Preceptor coaches** – assisted with above compilation and piloted skill validation sessions
