

PUTTING MICROBIOME SCIENCE INTO CLINICAL PRACTICE

SCIENTIFIC PROGRAM

Wednesday, November 9th

9 am – 9:10 am (CST) 3 pm – 3:10 pm (GMT)	Welcome and introduction Natalia Wagemans and Jan Suchodolski
9:10 am – 10:10 am (CST) 3:10 pm – 4:10 pm (GMT)	Severe dysbiosis and chronic non-responsive diarrhea – could it be bile acid diarrhea? Linda Toresson
10:15 am – 11:05 am (CST) 4:15 pm – 5:05 pm (GMT)	The role of postbiotics in pet nutrition and health Kelly Swanson
11:10 am – 11:25 am (CST) 5:10 pm – 5:25 pm (GMT)	<i>Microbiome Research Abstract</i> : Longitudinal assessment of toxigenic <i>Clostridium perfringens</i> strains in dogs with acute hemorrhagic diarrhea syndrome Helene Stübing
11:25 am – 11:40 am (CST) 5:25 pm – 5:40 pm (GMT)	<i>Microbiome Research Abstract</i> : Association between intestinal dysbiosis, netF-toxin encoding <i>C. perfringens</i> and increased intestinal permeability in dogs with acute hemorrhagic diarrhea syndrome Andrea Reisinger
11:40 am – 12:20 pm (CST) 5:40 pm – 6:20 pm (GMT)	Pathogen or red herring – should we be treating intestinal Clostridia in pets? Jan Suchodolski
12:20 pm – 12:30 pm (CST) 6:20 pm – 6:30 pm (GMT)	Closing remarks Jan Suchodolski

Thursday, November 10th

9 am – 9:05 am (CST) 3 pm – 3:05 pm (GMT)	Welcome Natalia Wagemans and Jan Suchodolski
9:05 am – 9:55 am (CST) 3:05 pm – 3:55 pm (GMT)	A practical approach to dietary fiber Julia Fritz
10 am – 10:50 am (CST) 4 pm – 4:50 pm (GMT)	Companion Animal FMT Consortium: guidelines for clinical practice Jenessa Winston
10:55 am – 11:10 am (CST) 4:55 pm – 5:10 pm (GMT)	<i>Microbiome Research Abstract</i> : Effects of fecal microbiota transplantation on the microbiome of healthy cats administered amoxicillin and clavulanate Jamie Hui
11:10 am – 11:50 am (CST) 5:10 pm – 5:50 pm (GMT)	The feline microbiome in gastrointestinal disease Fabio Procoli
11:50 am – 12 pm (CST) 5:50 pm – 6 pm (GMT)	Closing remarks Natalia Wagemans and Jan Suchodolski
