Session Objectives

In this session, participants will:

- Better understand the scope of harm suffered by those who experience preventable patient safety events,
- Learn about the insights patients and families are contributing to patient safety solutions, and
- Be offered the opportunity to partner with patients, family members and others urgently working to achieve objectives that advance patient safety and health equity as interconnected goals.

Welcome to the Patient Safety Revival!

Reflect – Renew – Revive!

Do we need a revival?

Revival – noun re·viv·al ri-'vī-vəl

1. An act or instance of reviving : the state of being revived: such as

- a: renewed attention to or interest in something
- b: a new presentation or publication of something old

2. A restoration of force, validity, or effect

Patients for Patient Safety US – Our Why...

Frustration with the drift and lack of of patient safety as a priority in the U.S.

Need for collective action and pressure

Power together to create ideas and change to influence safety
