

Innovation Day : Resilient Digital Transformation

Pacific 21st May 2020

All timings displayed are in Australian Eastern Standard Time (AEST).

- 10:00 AM **Welcome Address** Natalya Makarochkina, SVP International Secure Power Division, Schneider Electric
- 10:15 AM **Keynote: Powering & Digitizing Data Centers** Pankaj Sharma – EVP Secure Power Division, Schneider Electric
- 10:45 AM **A Future of Innovation & Strategic Transformation** Omar Hatamleh - Innovation Expert, Author & International Speaker

11:15 AM INTERMISSION / INNOVATION HUB

- 11:45 AM **Strategy Talk: Intuitive Industries Reimagined** Peter Herweck – EVP Industrial Automation Schneider Electric
- 12:15 PM **Building a Digitally Resilient Enterprise** Daniel-Zoe Jimenez – AVP, IDC
- 12:45 PM **Strategy Talk: Building Sustainable & Resilient Edge Data Centers** Kevin Brown – SVP & CMO Secure Power Division, Schneider Electric

1:15 PM INTERMISSION / INNOVATION HUB

Expert Learning Session Stream

Resilient Data Centres... in the Cloud, at the Edge
Designed for IT & Data Centre Professionals

Expert Learning Session Stream

Trends & Solutions for improving Profitability & Growth
Designed for IT Resellers & IT Solution Providers

Expert Learning Session Stream

Business Continuity across Transforming Industries
Designed for Facility Professionals, Contractors, Consultants
& Industrial System Integrators

- 2:15 PM **The Role of Edge Computing in Driving Digital Transformation**
Dalia Adib - STL Partners

- Finding Opportunities Amidst Angst, Change and Anxiety**
Steve Brazier - CEO, Canalys

- Panel: Industry 4.0 Perspectives:
The next wave of automation requires IT/OT integration**
Nikhil Pathak – VP Strategy Marketing & Operations, Schneider Electric
Tripp Partain - CTO, Converged Servers, Edge & IOT Systems, HPE
Jarrett Campbell - Director Strategic Alliances, AVEVA
John Vicente - CTO, Stratus Technologies

- 2:45 PM **Achieving Resiliency at the Edge through Integrated Ecosystem**
Bhagwati Prasad - VP Offer (International), Schneider Electric

- Digital Transformation/IOT driving Edge Application**
Oliver Duric - Director, Partner Channel Sales (International), Schneider Electric
Kiran Babu - Business Development Edge Computing (International), Schneider Electric

- The Rise of the Industrial Edge**
Vincenzo Salmeri - VP Commercial & Industrial, Schneider Electric

- 3:15 PM **Getting Edgy with Telco 5G and IT: The Hybrid Cloud Architecture Evolution**
Steve Carlini - VP Innovation and Data Center, Schneider Electric

- Why Remote IT Infrastructure Management is Critical to your Business — and your Customers**
Bernard Tan - Software Leader (EAPJ & India), Schneider Electric

- Driving High Performance & Patient Satisfaction in Today's Hospital**
Hans Luppens - Global Segment Director Healthcare Secure Power, Schneider Electric

- 3:45 PM **Why Remote IT Infrastructure Management is Critical to your Business**
Chi Sen Gay - Head of Digital Services and Software (International), Schneider Electric

- Strategic Alliances - Winning with Schneider Electric and Dell Technologies**
Stephen Brazil - Senior Director Global Extended Technologies, Dell Technologies

Presenters

Rajesh Thangaraj
Edge Solutions Evangelist

Beau Alderson
Partner Development Manager

Syd Hosseini
Sales Engineer

Salo Peter
Compliance Manager

Reimagining the Retail Experience with Edge Solutions

Rajesh Thangaraj, Edge Solutions Evangelist and Beau Alderson, Partner Development Manager

With traditional physical retailing being challenged by technology and the ever-changing behaviour of the hyper-connected consumer, brands and retailers are being forced to rethink their businesses and approaches. What role do Edge solutions play in gaining insights into customer experience?

Powering Immersive Education with Edge Solutions

Rajesh Thangaraj, Edge Solutions Evangelist and Beau Alderson, Partner Development Manager

Creating profound implications in classrooms. The decentralisation of data towards the "Edge" of the cloud is on the rise thanks to developments like the IoT, AI, VR/AR and the increasing number of endpoints within education networks.

Transformative Healthcare with Edge Solutions

Rajesh Thangaraj, Edge Solutions Evangelist and Beau Alderson, Partner Development Manager

Healthcare's reinvention is being driven by two main factors: the search for economic sustainability, and digital disruption. Healthcare spending is on an unsustainable trajectory, thanks to demographic shifts and globalisation. But just as health systems need to contain costs, digital health has emerged to enable approaches that are dramatically more cost-effective.

Edge Solutions for the Evolving Mining Landscape

Rajesh Thangaraj, Edge Solutions Evangelist and Syd Hosseini, Sales Engineer

Using technology innovations, Mining companies are beginning to drive new levels of performance and productivity. Internet of Things (IoT) & AI solution, enabling the Mining companies to manage operations with greater insight, efficiency, and precision.

Industrial Edge for the WWT Industry

Rajesh Thangaraj, Edge Solutions Evangelist and Syd Hosseini, Sales Engineer

Industries worldwide are experiencing rapid change in their daily operations, accelerated by technological innovation. These changes can transform the way industries manage, supply, and regulate their assets. Within the Water industry, technological innovation is enabling unique approaches to water systems and asset management. Edge associated technologies including IoT, Drones and AI transforming have far-reaching effects, changing the way water is delivered to highly urbanised regions, commercial zones, and rural locations.

2020 Data Centre Compliance & Standards

Salo Peters, Compliance Manager

Interested to hear about the latest data centre industry standards and what's new in 2020? This session highlights changes in standards and 2020 updates, applicable to Secure Power Data Centre products. Identify compliance requirements for tenders, specifications and product selection.
