**Interested participants must complete the registration form by 31 May 2023**

# Whole-of-society approach to creating healthy, resilient & sustainable cities: Harnessing South-South Cooperation for a post-COVID era

## Course Objective

This training serves as an introductory training for urban leaders, planners, and practitioners, aiming to:

- **Increase awareness and understanding** for managing complex urban disaster risks and enhancing public health emergency response preparedness, and South-South and triangular cooperation (SSTC);
- **Introduce useful concepts and tools** to strengthen whole-of-society engagement in urban disaster risk reduction (DRR);
- **Better prepare city stakeholders** and engage them in making cities resilient for future crises, health and non-health emergencies and uncertainties;
- **Facilitate learning** through SSTC towards sustainable development;
- **Inspire and motivate whole-of-society (especially young people) to play a key and active role** in securing resilient and sustainable urban futures.

## Course exam & evaluation survey

Participants will be given an online voluntary end-of-course exam via the UNOSSC virtual training platform to test their knowledge and understanding of key content taught and presented in the training. The assessment will consist of a quiz to test knowledge on SSTC, DRR, and public health. Participants need a score of 80% or above to succeed.

To enable evidence-based course evaluation, a post-course survey will be disseminated to participants to collect feedback on the course content and organization, as well as understanding participants' development needs for follow-up and to facilitate future programmatic designing.

## Targeted Audience

Local and national government officials in charge of disaster risk reduction and management, urban development and planning and public health emergency preparedness, national associations of municipalities, urban resilience and development practitioners, as well as civil society, private sector, and academia. The course is open to all applicants from both developed and developing countries, especially young people. Participants from Least Developed Countries (LDCs) and Small Island Developing States (SIDs) are highly encouraged.

## Training Agenda

<b>Wed, 7 Jun 2023</b> (100 min)	<b>Session 1:</b> Welcome & introduction: Whole-of-Society Approach to disaster risk reduction (DRR), public emergencies preparedness and South-South and Triangular Cooperation (SSTC)
<b>Wed, 14 Jun 2023</b> (90 min)	<b>Session 2:</b> Using Public Health System Resilience Scorecard Addendum to strengthen stakeholder engagement and integration of public health and DRR planning: Case examples from local government and stakeholders (UNDRR GETI)
<b>Wed, 21 Jun 2023</b> (90 min)	<b>Session 3:</b> Whole-of-society in urban health disaster risk management: from theory to practice (WHO & PAHO)
<b>Tue, 27 Jun 2023</b> (90 min)	<b>Session 4:</b> Pandemic preparedness and the role of youth and local communities in addressing future crises (UNOSSC)
