

FITC THINKNNOVATION CYBERSECURITY CONFERENCE

2023

THEME:

Developing Cybersecurity Resilience in Africa

11th & 12th,
Oct, 2023

9:00 am

Hybrid

Sponsors

BACKGROUND

As the world becomes increasingly interconnected and reliant on technology, the threat landscape in cyberspace continues to evolve. Africa, with its rapidly growing digital infrastructure and expanding digital economy, is not immune to these challenges. The need to develop cybersecurity resilience has become paramount to ensure the protection of critical systems, safeguard sensitive information, and foster sustainable development across the continent.

Understanding the current landscape as well as challenges that impede the development of cybersecurity resilience in Africa, is crucial to identify gaps and devise effective solutions in exacerbating the risks faced by individuals, businesses, and governments. This would also help the continent to safeguard its digital future and ensure sustainable development.

The FITC 2023 Cybersecurity Conference has been designed to help businesses or organizations in all sectors explore, learn about the latest trends and innovations and plan a strategic defense.

By bringing together thought leaders, experts, and stakeholders in the Cybersecurity industry, the conference aims to drive discussions and generate insights that will help put the nation's cybersecurity footprint on the global turf.

CONFERENCE OBJECTIVES

The 2023 FITC /NIBSS ThinkNnovation (Cybersecurity) Conference aims to achieve the following objectives:

- Provide insights into setting up, maintaining and improving cybersecurity in Financial Services Sector and other sectors through information and education about how to prevent, detect, defend against cyber threats.
- Provides an avenue to learn about current security issues, technologies, solutions, and gaps.
- Anticipate cybersecurity threats, build resilience and proffer solutions to cybersecurity threats;
- Manage security and risk, identify the right planning insights, tools, guidance and best practices to ensure appropriate levels of protection,

CONFERENCE TOPICS

- The Role of AI & ML in Cybersecurity
- Strategies for Accelerating Operational Resilience.
- Adopting Hybrid Cloud Infrastructure in Business Processes/Models
- Incorporating Organizational Culture into Risk-Based Cybersecurity Strategy
- Regulatory Oversight for Emerging Technologies

DAY 01

OCTOBER 11TH 2023

CONFERENCE AGENDA

9.00 a.m – 9.05 a.m

Introduction by Compere

9.05 a.m. – 9.15 a.m

Welcome Address

Mrs. Chizor Malize,
MD/CEO FITC

9.15 a.m – 9.25 a.m

Opening Address

Mr. Premier Oiwoh,
MD/CEO, NIBSS

9.25 a.m – 9.35 a.m

Keynote Address

Taiye Lambo,
Founder, Holistic Information Security
Practitioner Institute (HISPI) Atlanta, USA

9:35 am – 10:05 am

Coffee Break/Virtual Meetup

10:10 am – 11:10 am

1st Plenary Session:
The Role of AI & ML in Cybersecurity

Lead Speaker:

Kelly Orjiude,
Cybersecurity Manager (Ernst & Young
Global Limited)

Moderator:

Tunde Dada
Group Head IT/CISO, Inq. Digital

Panellists:

Funmilola Odumuboni
Associate Director | Risk Advisory, Deloitte
and Touché

Goodness Okpani,
Chief Technology Officer, Ethnos Cyber Ltd.

Mr Abraham Balogun ,
Co-Founder/Director of technology and
strategy at ENSL.

11:10 am – 11:20 am

Coffee Break/Virtual Meetup

11:20am – 12:20pm

2nd Plenary Session:
Strategies for Accelerating Operational Resilience

Lead Speaker:

Opeyemi Onifade
CEO, Afenoid Enterprise Limited

Moderator:

Mr. Daniel Adaramola
CISO SunTrust Bank Nigeria Limited

Panellists:

Mr. Igboakpo Eduje
CISO, Heritage Bank Plc

Wunmi Faiga
CISO, Sterling NG

12:20 pm – 1:20 pm

Lunch, Networking & Virtual Meetup

1:25 pm – 1:35 pm

Product Pitch by Ethnos Cyber Limited

1:35 pm – 2:35 pm

3rd Plenary Session:
Adopting Hybrid Cloud Infrastructure in
Business Processes/Models

Lead Speaker:

Dr. Anitha Chinnaswamy
Deputy Director, Cybersecurity Innovation
Centre, Aston Business School

Moderator:

Ikechukwu Ugoji
Senior Cybersecurity Business
Development Consultant, Pufferfish
Technology Limited

2.35 pm – 2.50 pm	
2.50 pm – 3.20 pm	
<div>DAY 02</div>	
8:50 am – 9:00 am	
9.00am – 9.10am	
9:10 am – 10:10 am	
10.10am – 10.40 am	
10.45am – 11.45am	
11.50 am – 12:50 pm	
12:50 pm – 1:10 pm	
1.10 pm – 1.30pm	

Panellists:

Oluleke Olatunji
CISO, FSDH Merchant Bank

Samuel Ubido
Chairman, Techinnovate Group, UK

Day 1 Closing Remarks

Networking

OCTOBER 12TH 2023

Networking

Day 1 Recap

4th Plenary Session
Incorporating Organizational Culture into Risk-Based Cybersecurity Strategy

Lead Speaker:
Femi Olofintila
CISO, Nova Merchant Bank Ltd

Moderator:
Nkiruka Aimienoho
Director – Cybersecurity, Privacy & Resilience

Panellists:
Ayodeji Jaiyeola
Cyber Security Manager, First Bank of Nigeria Ltd.

Toluwani Akinniyi
Assistant Manager, Data Risk Advisory, Deloitte, UK.

Coffee Break & Virtual Meet Up

5th Plenary Session
Regulatory Oversight for Emerging Technologies

Lead Speaker:
Adeolu Fadele
Lead, IT Architect, Central Bank of Nigeria

Moderator:
Olusola Odediran
Chief Information Security Officer, NIBSS

Panellists:
Dr. Nasir Baba-Ahmed
Post Doctoral Research Fellow, Télécom, Paris.

Chinenye Chizea
Consulting Security Architect, Nigeria Digital Identification for Development

Breakout Session 1
Effective Assessment of Cyber Governance, Risk & Compliance Frameworks.

Breakout Session 2
Zero Trust Design & Implementation

Speaker:
Dr, Bright Gameli Mawudor
Cyber Security Lead, Mara,

Closing Remarks

WELCOME ADDRESS

Ladies and gentlemen, distinguished delegates,

Welcome!

It is an absolute delight to extend a warm welcome to everyone here present at Day one of the FITC/NIBSS ThinkNnovation Cybersecurity Conference 4.0, themed **"Developing Cybersecurity Resilience in Africa."** On behalf of FITC and our esteemed partners at NIBSS (Nigeria Inter-Bank Settlement System), I extend my warmest greetings and heartfelt appreciation for your presence at this significant conference.

In the ever-evolving cyber landscape, it is remarkable to see how this conference has grown and evolved over the years. As we gather here for the 4th time, it's evident that this conference has become an integral part of our collective efforts to address the cybersecurity challenges facing Africa.

Africa's digital transformation journey has been nothing short of remarkable. Over the past decade, we have witnessed an explosion in digital innovation, with technology permeating every aspect of our lives. From the rise of mobile banking to the adoption of cloud computing, our continent is experiencing a digital renaissance that promises to revolutionize industries, uplift communities, and drive economic growth.

However, with these opportunities come significant risks. Africa has not been immune to the global surge in cyber threats. Cyberattacks have become commonplace, and these threats not only jeopardize our economic stability but also threaten the very fabric of our digital society.

Chizor Malize CIMLon, MloD,
Managing Director /Chief Executive
Officer FITC

Extensive research has shown that Africa is particularly vulnerable to cyber threats due to various factors, including a lack of robust cybersecurity infrastructure, inadequate awareness and education, and the rapid pace of digital adoption without commensurate security measures. The consequences of a successful cyberattack can be devastating, leading to financial losses, erosion of trust, and even endangering lives through critical infrastructure vulnerabilities.

It is against this backdrop that the theme of "Developing Cybersecurity Resilience in Africa" takes the stage. Cybersecurity resilience is not just about defending against attacks; it's about creating a dynamic and adaptive ecosystem that can withstand, respond to, and recover from cyber incidents swiftly and effectively.

While we've acknowledged the paramount concern of cybersecurity in today's interconnected world in our previous editions, this year's conference takes us a step further. It's about building on our knowledge, experiences, and collaborative efforts to enhance our continent's cyber resilience.

Over the two days, we have an exciting program lined up for you. We'll delve into topics such as The Role of AI & ML in Cybersecurity, Strategies for Accelerating Operational Resilience, Adopting Hybrid Cloud Infrastructure in Business Processes/Models, Incorporating Organizational Culture into Risk-Based Cybersecurity Strategy, Regulatory Oversight for Emerging Technologies. Our esteemed speakers and experts, many of whom are returning champions from previous editions, are here to provide fresh insights and perspectives on these critical areas.

The FITC/NIBSS ThinkNnovation Cybersecurity Conference is not just a platform for knowledge sharing and networking; it's a testament to the progress we've made and the journey that lies ahead. Together, we have the opportunity to explore new horizons, share best practices, and discover innovative solutions that will elevate our collective cybersecurity posture.

With a remarkable and esteemed line-up of speakers and thought leaders boasting impressive pedigrees and tremendous experiences, this conference promises an invaluable platform for knowledge exchange, experience sharing, and transformative learning.

We are honoured to host attendees from across the globe, as we provide an ultimate conference experience. As a world-class innovation-led and technology-driven organization, we have developed the most cutting-edge hybrid conferencing platform, in order to facilitate real-time engagement and quality interaction with both speakers and attendees across various networking points.

A very warm welcome to our esteemed Conference Advisory Board Members, whose inestimable expertise and guidance have been instrumental in shaping this event. We are truly honoured to have you on board, and I am confident that your contributions will enhance the overall experience and outcomes of this conference.

I express my deepest gratitude and welcome to our esteemed speakers and panellists, who are thought leaders and industry experts drawn from the brightest minds within the cybersecurity ecosystem, both locally and internationally. We eagerly look forward to the insights they will impart, which will undoubtedly bolster our collective resilience and steer us towards the path of efficient, effective, and sustainable cybersecurity practices.

To our conference delegates from diverse continents, I extend a warm and heartfelt welcome. You are about to embark on an insightful, engaging, stimulating, and interactive experience. I encourage you to actively engage with fellow delegates both physically and virtually.

I must also take a moment to thank our conference sponsors and partners, NIBSS, Bank of Industry (BOI), ENSL Group, and Ethnos Cyber Limited. Your support is invaluable, and your contributions have been instrumental in putting this conference together.

Once again, I welcome you all to what promises to be an extraordinary learning experience. I encourage each one of you to actively participate, ask questions, and foster meaningful connections during this conference. Our strength lies in our community, and by collaborating, we can amplify our impact. Together, we can navigate the ever-changing landscape of cybersecurity and ensure a safer digital future for our continent.

I wish you all a productive and enlightening conference.

Thank you.

CONFERENCE HOST

Chizor Malize CIMLon, MloD,
Managing Director /Chief Executive
Officer FITC

Chizor Malize is the Managing Director/Chief Executive Officer of Financial Institutions Training Centre (FITC). She has over two decades of professional experience that cuts across marketing, business process re-engineering, market growth strategy, reputation management and business consulting.

She has led various strategic and transformational projects in the financial services sector, local and international, in strategy, product marketing, electronic banking, retail, wholesale, private banking and brand repositioning. Her financial services experience spans several institutions such as Valucard Nigeria Plc, Standard Trust Bank/United Bank for Africa and Access Bank Nigeria Plc. She launched and managed several of these Nigerian financial institutions in 8 African countries and the United Kingdom.

Prior to assuming the role at FITC, Chizor was a Founding Partner and CEO at Brandzone Consulting LLC. She led the firm's Consulting practice serving major international and indigenous organizations of repute while creating thought leadership to advance businesses. She has been a mentor to a number of new ventures and advisor to Executives. She holds a Bachelor's degree and a Master's degree in Business Administration (MBA) with specialization in Marketing. She is a professional member of the Chartered Institute of Marketing (CIM), London and Chartered Institute of Marketing, Nigeria. She is an Executive Education Alumna of the London Business School, UK and the Columbia University, New York, United States. She is a recipient of Marketing and Leadership awards. She won the award for Marketing Personality of the year 2016 and the African Leadership Excellence Award 2017.

KEYNOTE SPEAKER

Taiye Lambo

Pioneer vCISO, Cybersecurity
strategist, USA

Taiye Lambo is a highly accomplished Information Security Executive with over 33 years of experience in information technology and cybersecurity across four continents. Born in Nigeria and later moving to the United Kingdom and the United States, he has held significant leadership positions in both government and commercial sectors. Taiye is recognized as a thought leader, visionary, pioneer, and serial entrepreneur in the field of cybersecurity.

His career highlights include serving as the first Chief Information Security Officer (CISO) for the City of Atlanta, holding the position of Director of Strategy and Continuous Improvement for the Federal Reserve Bank of Atlanta's Information Security Department, and working as an Independent Consultant to the United Nations. Taiye has founded several organizations, including CyberCops Europe, the UK Honeynet Project, eFortresses, CloudeAssurance, and the Holistic Information Security Practitioner Institute (HISPI).

In addition to his entrepreneurial endeavors, Taiye Lambo is dedicated to mentoring and investing in the next generation of leaders, particularly in the field of cybersecurity. He has authored a book titled "Attribution," addressing global issues such as social injustice, cybersecurity, family breakdown, and autism. His book also emphasizes the challenges of attribution in social and cyber spaces and encourages young individuals to contribute to closing the skills gap and diversity issues in cybersecurity.

Taiye Lambo's passion for social justice, cybersecurity, and mentoring has led him to engage in various initiatives and organizations related to these causes. He holds certifications such as Certified Information Security Manager (CISM) and ISO 27001 Auditor. Taiye is proficient in English and Yoruba and is actively involved in causes related to civil rights, economic empowerment, education, human rights, disaster relief, poverty alleviation, science and technology, and social services.

CONFERENCE SPEAKERS

Masterclass

Empowering Professionals in
Forensic Science and Financial
Crimes Investigation

In conjunction with Forensic System Solutions, we present one of our flagship courses - **Forensic Science Investigation Masterclass: Empowering Professional in Forensic Science and Financial Crime Investigations** to equip participants with the requisite skills on how to gain mastering in Forensic Intelligence in Payment Technology and maintain an edge in the dynamic financial landscape amidst the rise of FinTechs in Nigeria.

COURSE CONTENT:

01	Cyber Security Investigation	02	Electronic Evidence
03	Legal Aspect of Cyber Investigation	04	Mobile Forensics Investigation
05	Computer Forensics Investigation	06	Open Source Intelligence (OSINT)
07	Expert Witness Testimony	08	Data Security

Venue:

21st Century Technologies;
1 Babatunde Anjous Street,
Admiralty Way, Lekki, Lagos

Date and Time:

Nov. 28 - 30, 2023
9am to 3pm Daily

Fee Per Participant:

N250,000
(VAT Exclusive)

GOVERNANCE, RISK & COMPLIANCE MADE EASY

→ PCI
→ ISO 27001

→ NDPR
→ CBN Cybersecurity Framework

Services Features

- » Information Security - Governance & Oversight
- » Security Assessment and internal audit
- » Risk Assessment
- » Cyber Security Strategy Development
- » Supplier/Third party audit and procurement support
- » Incident response planning
- » Security Policies Development/Review
- » Data Privacy assessment

Measurable Outcomes

- » Defined security strategy agreed by the business
- » Quantified risk position and clarity over activities
- » Clear management information with Key Performance and Key Risk Indicators (KPI & KRI)
- » Refreshed security policies and standards
- » Current challenges in security transformation remediation
